Japan Outbound Tourism Market, Tourists Numbers, Countries (Aus, IND, Hong Kong, South Korea, Taiwan, Singapore, US, UK), Purpose of Visit

Roswell, May 8, 2020 (Issuewire.com**)** - Japan Outbound Tourism Market, Tourists Numbers, Countries **(Aus, IND, Hong Kong, South Korea, Taiwan, Singapore, US, UK)**, Purpose of Visit **(Holiday, Visit Friends & Relatives, Business, Others)**

How is Coronavirus affecting the Outbound Tourism of Japan?

The Covid-19 coronavirus outbreak has spread to about 212 countries. This has decimated the aviation and hospitality industries in a big way. Travel restrictions, declining demand, and the spread of Coronavirus in Japan have hurt Japan's outbound tourism market. There will be a big fall in demand for the year 2020, but we also expect the market to bounce back from the year 2021. According to Renub Research, in the long run, Japan Outbound Tourism Market is expected to reach **US$ 49 Billion** by **2025.**

Factors driving Japan Outbound Travel Market

The various important variables that will boost the Japan Outbound Tourism Market are; rising per capita income, increasing overall economic growth of Japan, rising tourism per capita expenditure, reforms of working style 4 days in a week is giving the chance to professional people of Japan to explore the world.

After 1985, when the yen's value rose sharply against other currencies, the number of Japanese overseas travelers has shown a sustained rise. The Japanese government launched the' Ten Million Plan' in 1987, which sought to double the amount of Japanese overseas travel from 5.5 Million to 10 Million by the end of 1991 from the 1986 point.

The first trend is that teenagers ignore conventional travel agents and make arrangements for foreign travel alone. There are some important factors that allow young people to travel cheaply without going on a no-frills trip. One is the rise of cheap carriers. In the mid-2000s, LCCs began flying from Japan to overseas destinations and flew aboard to Asia or Oceania. Japan's Abenomics-led economic recovery has boosted consumer confidence and facilitated increased recreational and leisure activities. In 2018, Japan was the United States ' second-largest source overseas. Japanese visitors were fourth-highest spending in the United States after China, Mexico, and Canada.
