Global Educational Robot Market Growth – at a CAGR of 17.9% During Forecast Period 2020-2028

Rapid Digitalization Trend and Rising Adoption of Smart Devices in Developing Countries are Some Key Factors Driving Educational Robot Industry Demand.

Vancouver, British Columbia Mar 9, 2022 (Issuewire.com) - The global educational robot market size is expected to reach USD 4.02 Billion in 2028 and register a robust revenue CAGR of 17.9% during the forecast period, according to the latest analysis by Emergen Research. Steady market revenue growth can be attributed to increasing government incentives and regulations regarding the usage of robots for education purposes across various sectors such as designing, building, programming, and computing. The engagement of robots in professional education such as medical, engineering, space, and scientific research is boosting revenue growth of the global educational robot market. The rapid shift to digitalization in developed and developing countries is further driving factor revenue growth of the global educational robot market. Educational robots enhance the teaching methodology in a positive manner, and the trend is expected to gain traction going forward.

Some Key Highlights From the Report

- Humanoid robots segment revenue is expected to expand at a rapid CAGR of 17.4% during the forecast period. Humanoid robots offer better performance in completing tasks as humans and AI provide the smart approach to drive solutions of problems and demand for and deployment of

educational robots is expected to increase significantly going ahead.
- The Asia Pacific accounted for the largest revenue share in the global educational robot market in 2020. Increasing adoption of AI-based education in intuitional and research domains in countries in the region is a key factor contributing to the rising demand for educational robots.
- Some major companies in the global market report include Hanson Robotics, Lego group, Modular Robotics, Pal Robotics, Probiotics America, Qihan Technology Co., Softbank Robotics, Robobuilder Co. Ltd., DST Robot Co., and Adele Robots

For the purpose of this report, Emergen Research has segmented the global educational robot market on the basis of constituents, type, education level, and region:

- **Constituents Outlook (Revenue, USD Billion; 2021–2028)**
  - Software
  - Hardware
  - Controllers
  - Sensor and Actuators
- **Type Outlook (Revenue, USD Billion; 2021–2028)**
  - Pre-programmed Robot
  - Humanoid Robot
  - Autonomous Robot
  - Tele-operated Robot
  - Augmenting Robot
- **Education level Outlook (Revenue, USD Billion; 2021–2028)**
  - Primary
  - Secondary
  - Professional

- **Regional Outlook (Revenue, USD Billion; 2021–2028)**
  - North America
  - S.
  - Canada
  - Mexico
  - Europe
  - Germany
  - K.
  - France
  - Italy
  - Spain
  - BENELUX
  - Rest of Europe
  - Asia Pacific
  - China
  - India
  - Japan
  - South Korea
  - Rest of APAC
  - Latin America

- Brazil
- Rest of LATAM
- Middle East & Africa
- Saudi Arabia
- UAE
- South Africa
- Turkey
- Rest of MEA

About Emergen Research

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyze consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, TouchPoints, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provide our clients with the ability to secure an edge over their respective competitors.
