Pegisai announces date for first of five token drops.

Dallas, Texas Apr 27, 2022 (Issuewire.com**)** - Pegisai USA announced May 18, 2022, as the date of the first of five "token drop" dates in which accredited investors may acquire restricted revenue-sharing tokens.

In accordance with SEC Rule 506(c), each of the Company's five token drops is limited to accredited investors only. The Company's announcement represents the first public notice of the $125 million offer. The offering is structured to provide each accredited investor the opportunity to acquire a minimum of $1 million of tokens per drop.

Pegisai USA's competitive token acquisition format assures the even distribution of the restricted tokens as part of the Company's plan to introduce a non-governmental regulatory authority regulating the digital money space globally

As the inventor of peer-to-peer network security token technology, the Company is executing a comprehensive plan to reign in the unlawful usage of its technologies.

The Company recently announced it is deploying a next-generation cryptocurrency replacement platform which represents an evolutionary change in the electronic payments and digital money industries.

The Company recently released a series of warnings covering intellectual property violations within the cryptocurrency industry and opposing the U.S. Government's attempts to replace the printed U.S. Dollar
