American Pop artist Lexi Mariah’s previous singles “Waterfall” and “SOURPATCH” received praise from major media outlets consisting of Rolling Stone, PopWrapped, L’Officiel and many more. The singer now returns with her first release of 2021, titled “Playlist”.

The exhilarating, yet emotional track was released on all digital platforms on June 11, 2021. “Playlist” was written by Lexi Mariah herself, along with co-writers and producers Josh Frank, Joe Frank and Ricky Frank.

The song “Playlist” is the addition that your favorite playlist needs, to have you on your feet and dancing throughout summer 2021. Embodying the perfect mix of both lighthearted and emotional lyrics, the track

features Lexi Mariah's ethereal vocals in the verses, complemented by a melodious guitar line and a resonant synth. The sound is then switched up with a lively, electronic vibe in the chorus.

"I have some playlists that I've made over the years that are now hard for me to listen to because the songs give me such vivid flashbacks of times I shared with people who are no longer in my life. On days where I'm able to bring myself to listen to them, all of the memories, good and bad, come rushing back. I always wonder if those songs make the other person think of me, too. When writing "Playlist", I wanted it to be a track that my listeners could dance to, but also one that would tug on their heartstrings a bit since it's a concept that I feel so many people will be able to relate to." - Lexi Mariah on "Playlist"
