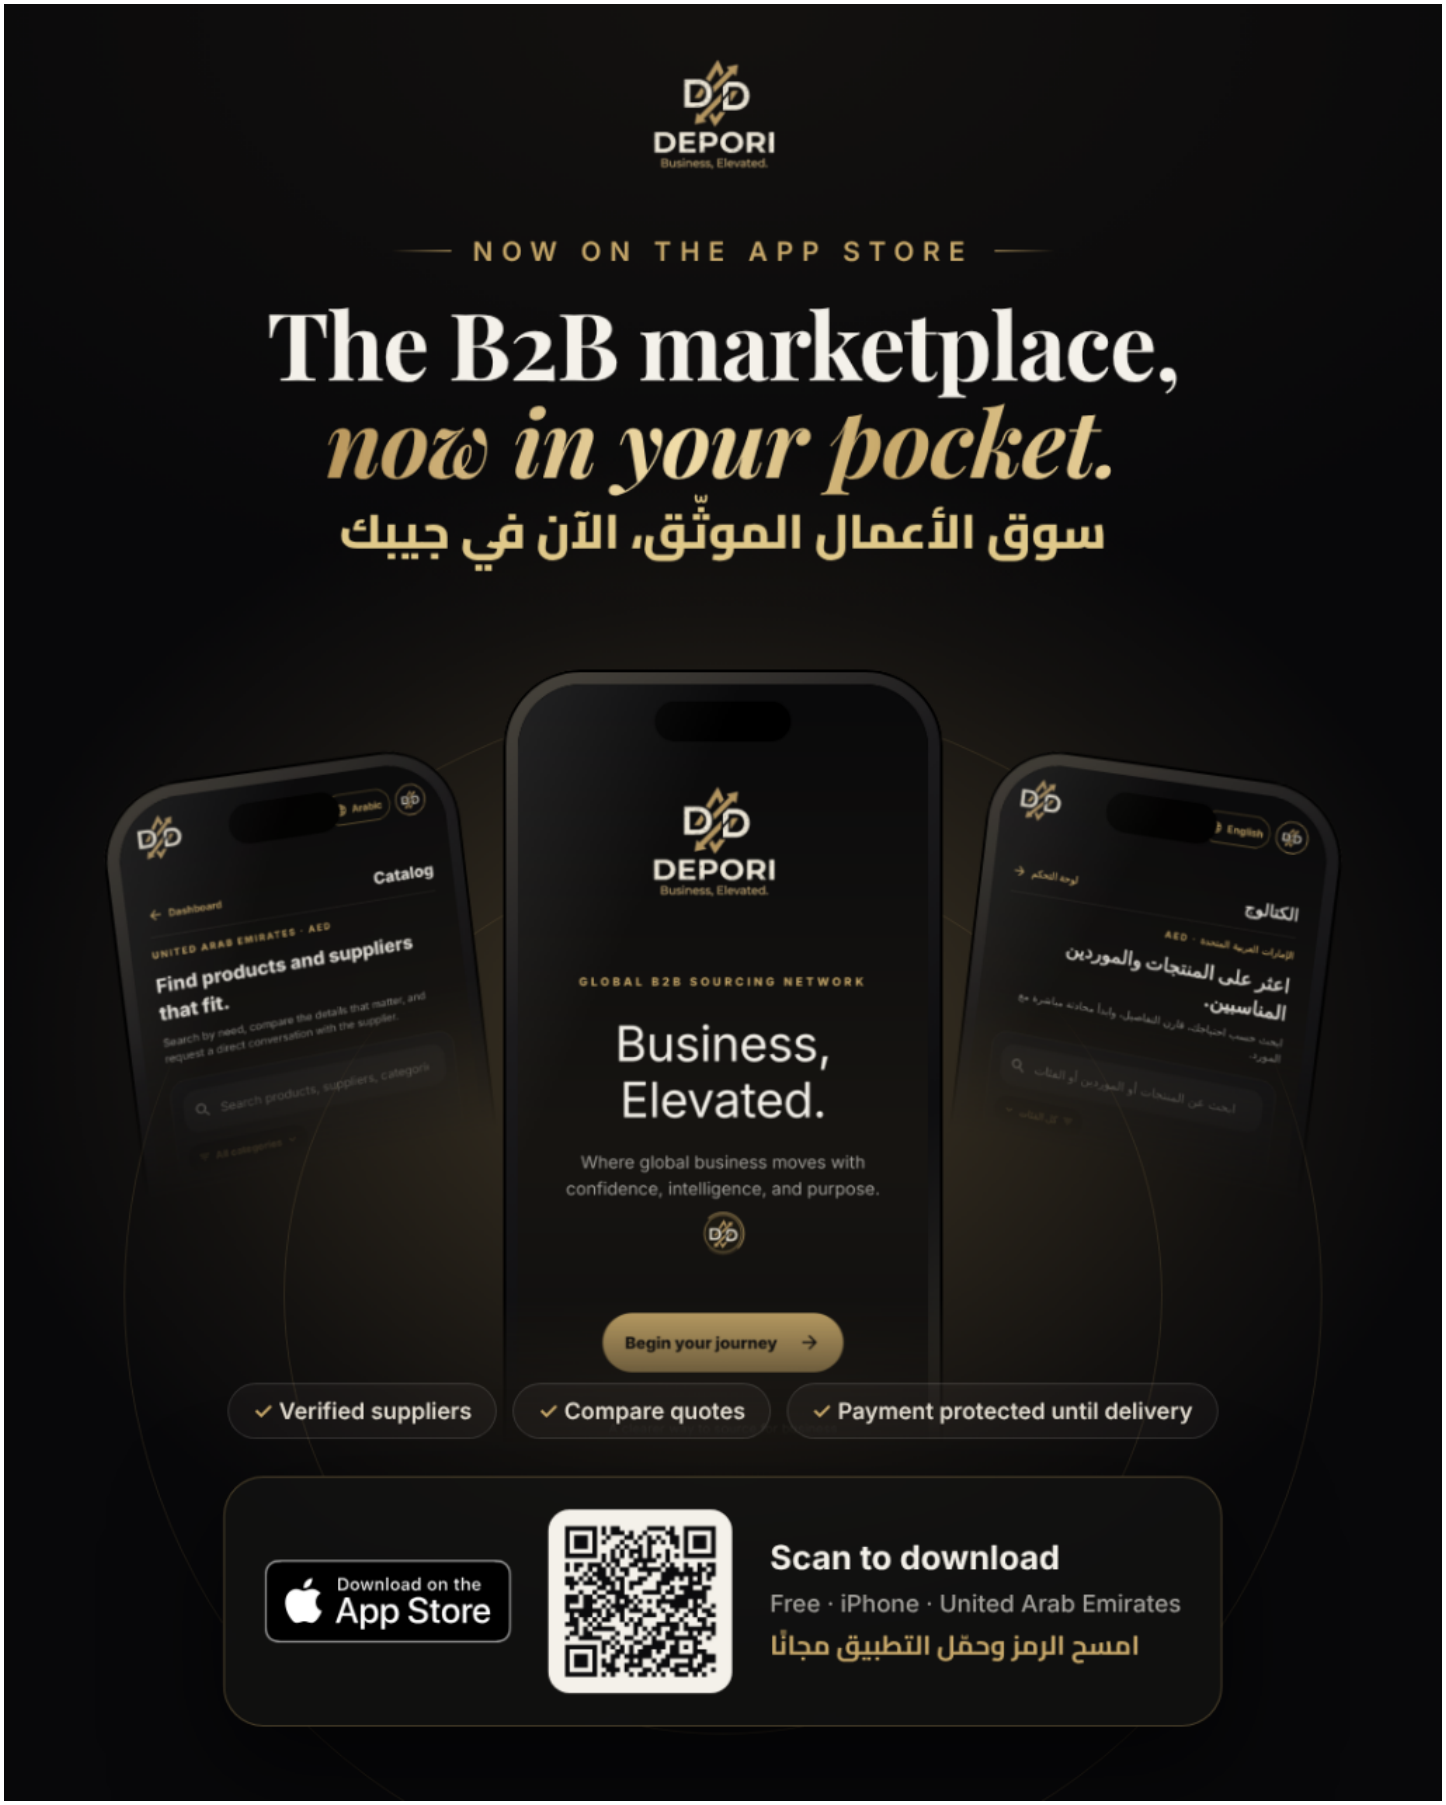
Abu Dhabi's DEPORI Brings Verified Supplier Quotes and Protected Payments to iPhone

The verified B2B marketplace for UAE restaurants, cafés, hotels and offices launches its app on the App Store, in English and Arabic.



Al Ain, Abu Dhabi Nov 23, 2026 (Issuewire.com) - For a restaurant manager or a hotel purchasing

team in the UAE, buying everyday supplies often means calling one supplier after another, waiting for prices on WhatsApp and paying before the goods arrive. DEPORI, a verified B2B marketplace operated by Deportivo General Trading L.L.C - S.P.C in Abu Dhabi, has brought its answer to that problem to the iPhone.

The DEPORI app is now on the App Store, in English and Arabic, and can be downloaded in the United Arab Emirates, Saudi Arabia and Egypt. The marketplace itself currently serves businesses in the UAE.

How buying works on DEPORI

A buyer writes one request with the quantity, the delivery location and the date, and sends it to up to five verified suppliers at once. The quotes come back side by side, with the price, the minimum order and the delivery terms, so the buyer can compare them without a single phone call.

Payment is made through DEPORI. The money reaches the supplier only after the order is delivered and the buyer's 48-hour window to report a problem has passed. Before anyone can trade, DEPORI verifies every buyer and every supplier with a trade licence and a signed agreement.

On the iPhone, buyers can request and compare quotes, reorder a past purchase in one tap, and run several branches from one account, each with its own address and manager. Suppliers can receive requests, answer with quotes and follow their orders and payouts, with notifications for every new request, order and payment.

What DEPORI covers

DEPORI focuses on the operating supplies that hospitality and office businesses buy every week: food packaging, kitchen and restaurant equipment, cleaning tools, furniture, uniforms, printing and signage, and POS hardware.

For suppliers

Suppliers can start on the Free plan, with no subscription and a 4% commission on paid orders only. The Pro and Enterprise plans carry no commission. During the launch period, the first 30 verified suppliers receive the Pro plan free for one month.

Availability

The DEPORI app is available on the App Store at https://apps.apple.com/ae/app/depori/id6831304225 and the full marketplace is available on the web at https://www.depori.com, with the same account on both.

About DEPORI

DEPORI is a verified B2B marketplace for business supplies in the United Arab Emirates. It connects restaurants, cafés, hotels, catering companies and offices with verified suppliers, and lets buyers request, compare and pay for supplies in one place, with protected payment until delivery. DEPORI is operated by Deportivo General Trading L.L.C - S.P.C, licensed in Abu Dhabi.
