APEX Health Services Earns 2026 Chicago Top Workplaces Award Based on Employee Feedback

Westmont, Illinois Nov 24, 2026 (Issuewire.com) - APEX Health Services, a provider of home health, hospice, palliative, and non-medical home care in Chicago and northern Illinois, has been named a 2026 Chicago Top Workplaces winner. The Chicago Top Workplaces program is run by Energage in partnership with the Chicago Tribune, and its awards are based solely on employee feedback gathered through a confidential workplace survey.

Only 70 Chicago-area organizations with fewer than 250 employees were recognized on this year's list. For APEX, which has provided in-home care across the region since 2008, the award reflects how its own employees describe the organization they work for.

An Award Decided by Employees

Top Workplaces awards involve no nominations, applications, or judging panels. Results come from the Energage Workplace Survey, which employees complete confidentially. Their responses are compared against a benchmark built from more than 23 million surveys at over 70,000 organizations, which makes the award a measure of how employees experience their workplace rather than how a company presents itself.

APEX's employer profile is available on Top Workplaces.

Recognition for Purpose, Industry and Well-Being

The Chicago award joins several other 2026 Top Workplaces honors APEX received this year, including **Purpose & Values**, **Healthcare Industry**, and **Employee Well-Being**. Like the regional award, each one is based on the same employee survey results.

Together, these honors point to a consistent theme in employee feedback: a team of nurses, therapists, caregivers, social workers, clinical leaders, and administrative staff who see a clear purpose in their work and feel supported in doing it.

What the Award Means for Patients and Referral Partners

Hospitals, physicians and skilled nursing facilities across Chicago and northern Illinois refer patients to APEX for home health care, hospice care, palliative care, transitional care and non-medical home care. Those partners rely on APEX teams to communicate clearly, coordinate care, and respond when a patient's needs change.

APEX believes that a workplace built on shared values and attention to employee well-being gives its staff the footing to provide that kind of steady, patient-centered care in private homes, assisted living communities and nursing homes.

Careers at APEX

APEX is hiring across clinical, hospice, home care, and administrative roles, including registered nurses, nurse practitioners, therapists, certified nursing assistants, social workers, and caregivers.

Current openings are listed on the APEX careers page.

About APEX Health Services

APEX Health Services is the shared brand of three affiliated Illinois companies: APEX Home Health Care, APEX Hospice and Palliative Care, and Apex Home Care. Since 2008, APEX has provided in-home care in Chicago and northern Illinois, including physician-ordered home health care, hospice care, palliative care, transitional care, non-medical home care contracted through IDOA and DORS, and private duty home care. Care is delivered in patients' homes, nursing homes, and assisted living communities, in English and Spanish, with Korean-speaking home care support also available. APEX has administrative offices in Westmont, Chicago, Schaumburg, and Joliet, Illinois.
