Brawn Herbals Expands Its Ayurvedic Wellness Portfolio with Innovative Herbal Care Solutions

Blending Traditional Ayurvedic Knowledge, Natural Ingredients and Modern Manufacturing Practices to Support Everyday Wellness

Gurgaon, Haryana Nov 4, 2026 (Issuewire.com) - Brawn Herbals, the herbal healthcare division of Brawn Cosmetics and Herbals Pvt. Ltd., continues to strengthen its presence in the Ayurvedic wellness and personal care industry with a diverse portfolio of herbal products. The brand focuses on combining traditional Ayurvedic knowledge with modern manufacturing practices to offer nature-inspired solutions

for everyday care and wellness.

As consumer interest in Ayurvedic healthcare and herbal personal care products grows, **Brawn Herbals** aims to make traditional herbal wellness more accessible through its expanding product range. The company's approach emphasises quality, product innovation and the use of carefully selected herbal ingredients.

Bringing Traditional Ayurveda into Modern Lifestyles

Ayurveda has a long-standing association with natural ingredients and traditional wellness practices. Inspired by this heritage, Brawn Herbals develops products that complement modern lifestyles while reflecting the principles of herbal care.

Its product portfolio includes Ayurvedic **pain relief oil**s, herbal sprays, pain relief balms, massage potlis, skincare, haircare, baby care and personal care products. These categories offer consumers a variety of options for their everyday wellness and personal care routines.

The brand's Ayurvedic pain relief range, including oils, sprays and balms, is designed for external application and massage. Its herbal massage potli products also draw inspiration from traditional Ayurvedic massage practices.

Commitment to Quality and Manufacturing Excellence

Quality and consistency remain important priorities for Brawn Herbals. The company operates a cGMP-compliant manufacturing facility in Gurugram, Haryana, supporting its commitment to organised manufacturing processes and quality-focused production.

By combining traditional herbal knowledge with modern manufacturing capabilities, the company aims to develop products that meet evolving consumer expectations.

Brawn Herbals continues to focus on product development, innovation and maintaining quality standards across its diverse product categories.

Growing International Presence

Brawn Cosmetics and Herbals Pvt. Ltd. has established an international business presence across more than 60 countries, with market reach spanning Southeast Asia, Africa and Latin America.

Through its expanding business network, the company aims to introduce Ayurvedic and herbal wellness products to consumers in different international markets. Its growth strategy focuses on exploring new opportunities, developing business partnerships and strengthening its global distribution network.

Moving Towards a Herbal Wellness Future

With increasing interest in herbal healthcare and nature-inspired personal care, Brawn Herbals aims to continue expanding its product portfolio and strengthening its brand presence.

The company's vision is to bring together traditional Ayurvedic wisdom, modern manufacturing practices and continuous product innovation to make herbal wellness an accessible part of everyday life.
