

Announcing the Blake Rubin Foundation

Announcing the Blake Rubin Foundation, Founded by Philadelphia Based Photographer Blake Rubin for the Development of Future Photographers

Philadelphia, Sep 20, 2018 ([Issuewire.com](http://www.issuewire.com)) - [Blake Rubin](#) is happy to announce her Blake Rubin Foundation is now accepting applications from eligible students looking to get a leg up on their education expenses. To be eligible, students must be a current college student or a high school student who has already been accepted to attend an accredited university. To enter for a \$1,000.00 scholarship, students must provide a 500-word essay and a winner will be selected based on the merit of their application. Interested students can apply at <http://www.blakerubinfoundation.com/>.

As a successful photographer, Blake remembers just how difficult it can be to break into such a cutthroat industry, especially while struggling with student debt. According to Blake, "Photography is an industry that relies heavily on having the right tools and skills to handle anything that comes your way. Even amateur photographers often struggle with the costs of various cameras, lenses and editing software. No aspiring photographer should have to choose between the tools needed to do their job and the schooling required to properly use them."

Blake believes that because she has been blessed with success in a field that often overwhelms newcomers, she has an obligation to give back and help aspiring photographers hone their craft. The Blake Rubin Foundation is the culmination of this spirit and she hopes her legacy can help inspire and fund the next generation of storytellers.

About Blake Rubin:

[Blake Rubin](#) is an established Philadelphia area photographer who remembers from first hand experience just how tough it can be for those just starting out. She got her start early and experimented with Polaroid photography at a very young age. She believes this gave her the fundamental skills required to move into digital photography and to make due with the limited tools at her disposal. As her

skills developed Blake made a name for herself and her trademark style can be seen in the emotion she captures through her work. She has recently begun traveling across the world and experiments regularly with portraits and landscape photography.
