

We Kiddoos launches an app to help students connect with tutors and education centers directly

Free mobile app lets students and parents connect with tutors and education centers without the need of an intermediary

Hire the Best

After comparing connect instantly
with tutors via WhatsApp

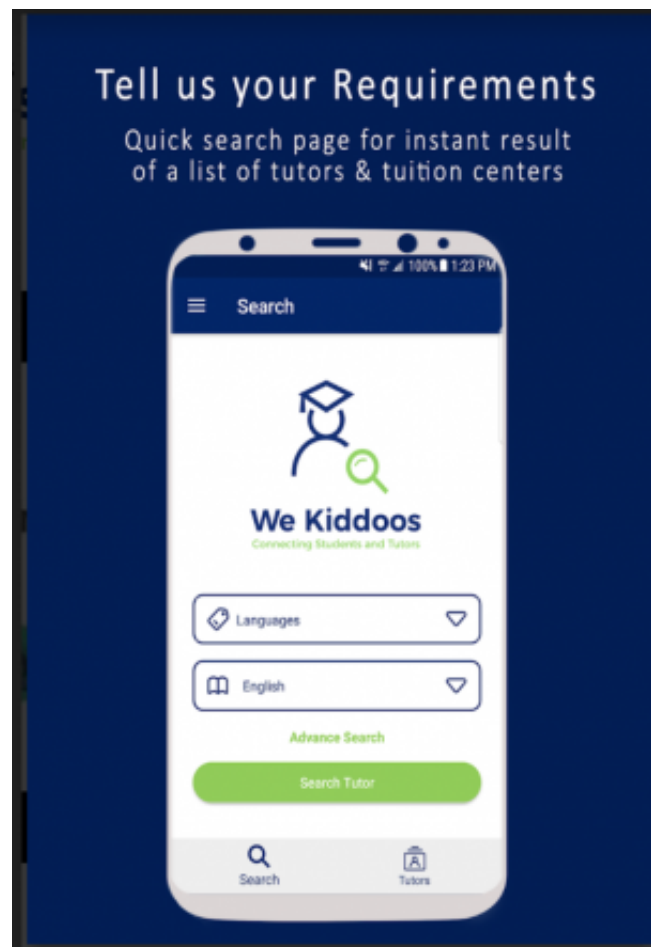

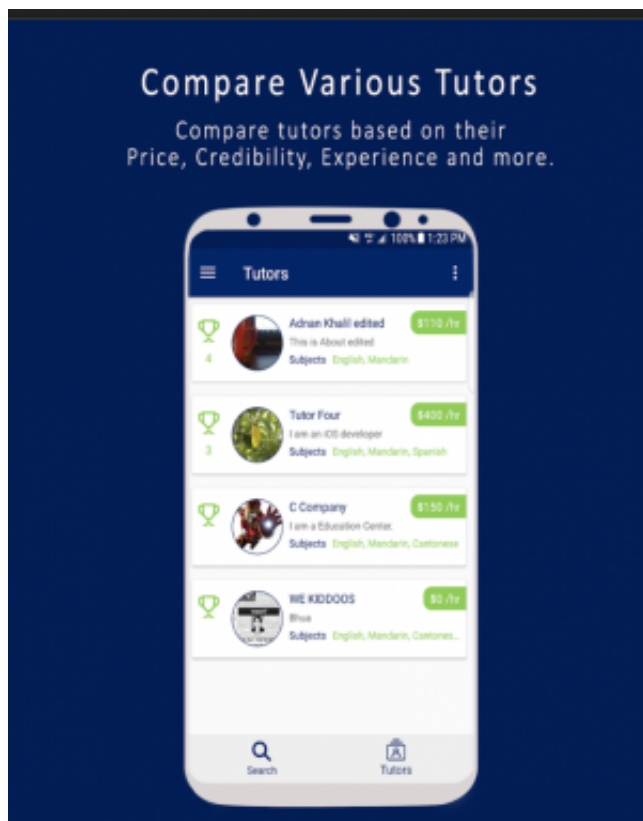

Hong Kong, Sep 17, 2018 (Issuewire.com) - The app We Kiddoos is designed to simplify the tutor hiring process. The app connects students, tutors and tuition centres in a single platform. Students and parents can contact a tutor or education center directly with few clicks.

Users can register on the app, search for the subject and will be able to see all the available tutors. From the tutor profile view, users can contact the tutors directly via WhatsApp, Phone or Email. “Other agencies and websites require customers to answer dozen questions before matching a tutor. We Kiddoos is customers-friendly application, students can get in touch with preferred tutor instantly in 3 easy steps” said Vishal Surtani, co-founder of We Kiddoos. We Kiddoos makes it easy for students and parents to hire a tutor.

We Kiddoos is available for free in Hong Kong and can be downloaded from Apple App Store and Google Play Store. The app supports English and Chinese languages. We Kiddoos team is constantly improving the app based on customer feedback and experience.

Please visit www.wekiddoos.com for more on We Kiddoos.

About We Kiddoos: Founded by Vishal Surtani and Daljit Gill in 2018, We Kiddoos mission is to spread the love of education by connecting students with educators through our platform.
