

# Clear Vision 4, sniper hit game is back with more stickman brutality and humour!

New Ultraviolent and melodramatic missions for sniping fans.

**Stockholm, Oct 11, 2018** ([Issuewire.com](http://Issuewire.com)) - Fans of the celebrated stickman sniper game **Clear Vision** have been longing for the next instalment in the popular series. That wait is over as Swedish developer Eldring Games has now released **Clear Vision 4**.

**Clear Vision 4** promises a full set of brand-new missions for the sniper-for-hire Tyler in his journey from being an ordinary guy to becoming a professional hitman. The wide range of fast-paced missions is as usual, humoristic & ultraviolent with a melodramatic plot.

For example, you get to take out a guy at a sausage eating competition, a jetpack inventor and even a complete death metal band. To master the game, you need a combination of sniping and problem-solving skills. All missions are packed with hilarious blood and gore animations.

As you complete the missions, you get to build your own brutal weapons with combinations of components and guns. **Clear Vision 4** also has very thorough sniping mechanics, and players need to master both wind and distance in order to hit the targets. Note that the game is rated 17+ and is not suitable for children.

Clear Vision 4 is available for free on iOS & Android via [App Store](#) and [Google Play](#).

**About Eldring Games AB**

*Eldring Games is an independent game developer based in Stockholm, Sweden. Since 2012, the company has released sniper games that have been installed over 35 million times by players all over the world.*

*Everything started after the founder Dan Erhard Olsson survived a near-fatal case of blood poisoning, which forced him into a year-long struggle until full recovery. What started out as a way to make it through rehab has evolved into a passionate game development company that produces innovative & detail-oriented games with a personal touch.*
