

GigIndia Pocket Money App Gets a Makeover, Launches Its Biggest Update Yet.

Pune, Oct 23, 2018 (Issuewire.com) - Launching today, GigIndia aims to give its users a better experience on the app by redesigning the user interface of the app altogether. With the redesigned home-screen, users are shown a variety of online jobs for students, (also known as gigs) which help to earn pocket money regularly. The concept is simple - Select a gig, Perform the steps, wait until the team @ GigIndia verifies your entry & get paid right into your wallets. Users can transfer pocket money from their wallets to their Paytm Accounts in a single click! The app is one of the few part-time job apps for college students.

Firstly, GigIndia is launching with a newly redesigned landing screen of the app which focuses on sections like Part Time Jobs, Earn Pocket Money, Internships and Work From Home Jobs and many

others. The aim of this new design is to personalize each user's experience on the app and simultaneously making it very easy for them to earn pocket money and do internships.

Featured Wall is one of the key features revamped for this release which is a mini platform within the GigIndia app used to promote the top users, the ones who have been able to earn maximum pocket money online. It starts with the giveaway winners, then best interns with various internship programs and end with our top work from home users.

OTP

Earlier, GigIndia had a sign-up and sign in the process with an only email address but with this new release, they have added a stage with verification keeping in mind the security of the user's account.

- ▶ Secure Sign up with OTP.
- ▶ A Redesigned Main Screen - New Banners, new layout for the main screen.
- ▶ Navigation Drawer - increased visibility and ability to navigate through the app.
- ▶ 5 Tabs on the home screen.
- ▶ Brand New Refer & Earn Levels.
- ▶ Fresh and Redesigned Trial Gig Experience.
- ▶ Cool New Featured Wall.

Their latest update focuses on improving the overall user experience inside the app, providing increased & better opportunities to users to enhance their skills, work with top brands and providing the option to work right from the comfort of their home. With an increased awareness among users about their personal data being safe, GigIndia has also bolstered its security with OTP authenticated login, which will make sure user data is secure & cannot be accessed by anyone else. To add a bit of life into searching for online jobs for students, GigIndia features its top users on a segment called Featured Wall. This wall lists all featured users, contest winners & articles from the GigIndia Team. Users can provide their testimonials about GigIndia from the wall & stand a chance to be featured on the app. Users have to take part in contests, & earn pocket money online on the app to be featured. That's not all, users can refer their friends to GigIndia & the more people they refer, the more they can earn. There are referral levels which users attain after referring their friends, and they are finally eligible to claim a grand prize for themselves. The GigIndia redesign is a signal to the users that the company is ready to adapt & listen to what its users have to say. The app has been designed keeping it's initial goal in mind - to provide earning options & part-time jobs for students. To earn pocket money online is a difficult routine, but GigIndia strives to make it easy!
