

How You Can Recover and Reinvent Yourself after Physical Abuse or False Accusations & Incarceration

Who's Right? Wrong? Mental Illness Affects, The Guilty, Societal Standards and Hypocrisy-entrepreneur, public speaker and author Karl Kapustka is the one man army to fight with the negative consequences of such issues.

Scottsdale, Oct 9, 2018 (Issuewire.com) - The dark side of living in a society comes with becoming a victim of various abuses- be it sexual, physical or psychological. According to the National Sexual Violence Resource Center, 1 in five women and 1 in seventy-one men will be raped at some point in their lives. In the U.S., 1 in 3 women and 1 in six men experienced some form of sexual violence in their lifetime. 3. 81% of women and 35% of men report significant short or long-term impact such as Post-Traumatic-Stress Disorder. 1 in four girls and 1 in six boys will be sexually abused before they turn 18 years old. 90% of sexual assault victims on college campuses never report the assault. These acts of violence are just the tip of the iceberg on where the trend has been throughout the years.

On the other side of the coin, the trend keeps climbing. Misapplied justice causes the innocent to suffer. According to the National Registry of Exoneration, it is estimated that more than 20,000 people at any given time are in prison over false accusations. Every person who cares about the nation's promise of a

fair and just judicial system should be terrified. For both sides of these horrible injustices, the victims suffer emotional, mental, physical, financial and spiritual barriers that prevent them from ever leading a normal life ever again. Redemption, peace, and love never come for many.

Until now, there hasn't been a handbook for women and men who have dealt with these horrible crimes and injustices against them. This breakthrough book, workshop, and presentation (Way Rad Culture), guides women, men, parents, children, business owners, employees and friends through the process of dealing with the complexities of recovery and treatment.

Having been a rape survivor at 8 years of age and sexually abused at 13 years old again, Karl, at the age of 49 suffered through the humiliation of being arrested, shackled, falsely accused and incarcerated for sex assault. He was pronounced innocent later of these sexual assault charges.

Karl Kapustka is a sexually abused and injustice survivor, #1 best selling author, and consultant who now provides a solution to this complex mess. Who is right? Who is Wrong? How mental illness affects both the innocent and the guilty. What are the societal standards and hypocrisy?
