

Mr. Craig to drop new album titled “Inspired”

Talented music artist and entrepreneur, Mr. Craig, announces the launch of new album titled “Inspired” on October 22 to inspire music lovers across the globe.

New York, Oct 18, 2018 ([Issuewire.com](http://www.Issuewire.com)) - Mr Craig is a multitalented music artist that has become increasingly popular over the years, serving his fans and other lovers of good music with good sounds and touching lyrics. The entrepreneur and owner of the “**Inspired By. Mr Craig**” clothing line recently announced that he would be dropping his new album on **October 22, 2018**.

The music and entertainment industry has evolved over the years with several talents from different parts of the world treating their fans to good music. Unfortunately, today's music and some artists seem to have deviated from the true essence of music as some songs now lack any meaningful message that could positively impact the lives of listeners. This is where Mr Craig is looking to change the narrative with the launch of his new, inspirational 18-track album.

The album titled **"Inspired"** contains 18 amazing tracks, with each song inspired by an event that occurred at some point during the making of the album. This attribute stands the album and its content out from any other music projects that currently flood the entertainment industry.

The primary of the album is to impact people's lives positively as Mr Craig aims to inspire others to aim for the attainment of their full potential in whatever endeavour they have chosen. The album also allows the world to see the creative side of Mr Craig after making his presence felt in the fashion world with the launch of his "Inspired By Mr Craig" clothing line.

"Inspired" is a somewhat chronicle of how Mr Craig has been able to overcome the different challenges life threw at him and become a success against all odds.

"Inspired" will be available on all digital platforms upon its release on the 22nd of October, 2018.

More information about "Inspired" and other projects from Mr Craig can be found on his [website](#). Mr Craig is also available across several social media platforms including [Facebook](#), [Twitter](#), [Instagram](#), and [YouTube](#).
