Leading vehicle history checking platform, Rapid Car Check, giving useful information about a vehicle to potential buyers with free and paid car history reports

RAPID CAR CHECK

Sheffield, Oct 8, 2018 ([Issuewire.com](https://www.issuewire.com)) - Rapid car check is a vehicle history checking website offering free and paid vehicle reports to individuals and other such prospective buyers of vehicles, consequently helping them to make more informed decisions. The site gives useful information such as whether a vehicle is stolen, on finance, and any other such information that could significantly affect the decision of the buyer. This is to ensure that the vehicle is purchased while having the most accurate information about it.

Buying used vehicles comes with several risks that could eventually lead to the new owners spending significantly more on the vehicle or even losing its possession totally. This led to the concept of car registration checks, which started as far back as 1983 with the manual and paper-based check that lasted for days. However, technological advancement has led to the development of digital checks that are carried out in seconds. Rapid Car Check is one of the providers of fast, easy, and reliable checks for vehicles.

The platform offers a cost-effective solution for checks with two packages – free and deluxe checks. Some of the many information users of the website include Finance Check, Written off Check, and Stolen Check. Other information about the vehicle provided are Imported / Exported, Scrapped, Plate Change and MOT History Check, amongst others.
