

California Retro Rock & Roll Band Simply Amused Drops new Debut Album “Songs For The Broken”

Retro Rock & Roll is alive and well with Simply Amused driving the point home with first album “Songs For The Broken”

Los Angeles, Nov 2, 2018 ([Issuewire.com](http://www.Issuewire.com)) - With clear influences from some of Rock's greatest, Simply Amused mesmerizes with first album “Songs For The Broken”. All the more impressive is that the project consists of only two musicians — Californian multi-instrumentalist Seth Cardew, backed up by Ace, a gifted and inspired studio drummer from Canada. With expressive and subtle technical skills, distinct vocals, and a love for the genre, Seth and Simply Amused's “Songs For The Broken” is leaving

an impact on listeners that has been remarkably positive. “Songs For The Broken” maybe Seth's first album as Simply Amused, but all signs point to it not being his last.

“Each song has its own story, sound, and journey,” Seth noted. “You really get to know these characters against the backdrop of the music, and discover they’re all flawed in one way or the other, but that’s exactly what I find endearing about them.”

The album's stunning artwork was created by talented artist Annie Jia and backup artist Jin Lim, whom Seth brought in not just for the cover of “Songs For The Broken” but for distinct pieces of art illustrating each of the album's 12 songs.

“Songs For The Broken” is available across all major music platforms including Spotify, Apple Music, iTunes, and many more. A complete list of links can be found on their easy-to-navigate website that showcases the music, lyrics and artwork all together.

The early response for the nostalgic journey of the debut has been very positive. One passionate fan recently remarked, “Seth and session drummer Ace genuinely seem to have meticulously crafted their instruments. ‘Songs For The Broken’ is a wonderfully written piece and assuredly has something to offer for every distinct kind of listener. This is certainly a timeless record for many years to come.”

The whole album was written and performed (apart from drums) by Seth and mixed and mastered by Chris Finnell at CLF Studios.
