

Elsa and Anna of the Real world

Birmingham, Nov 30, 2018 ([Issuewire.com](http://www.Issuewire.com)) - This is a true story of two sisters being separated during their childhood and their love is reborn with a photoshoot by @GNDPhotos. Sehaj was only a few months old, she was sent to India where her grandparents brought her up. Meanwhile, Harleen, stayed at home, in the UK, with her parents. These two sweet sisters only video called once in a while. They saw each other's pictures and would wonder what it is like to have a 'real sister', where they can laugh, play and fight together.

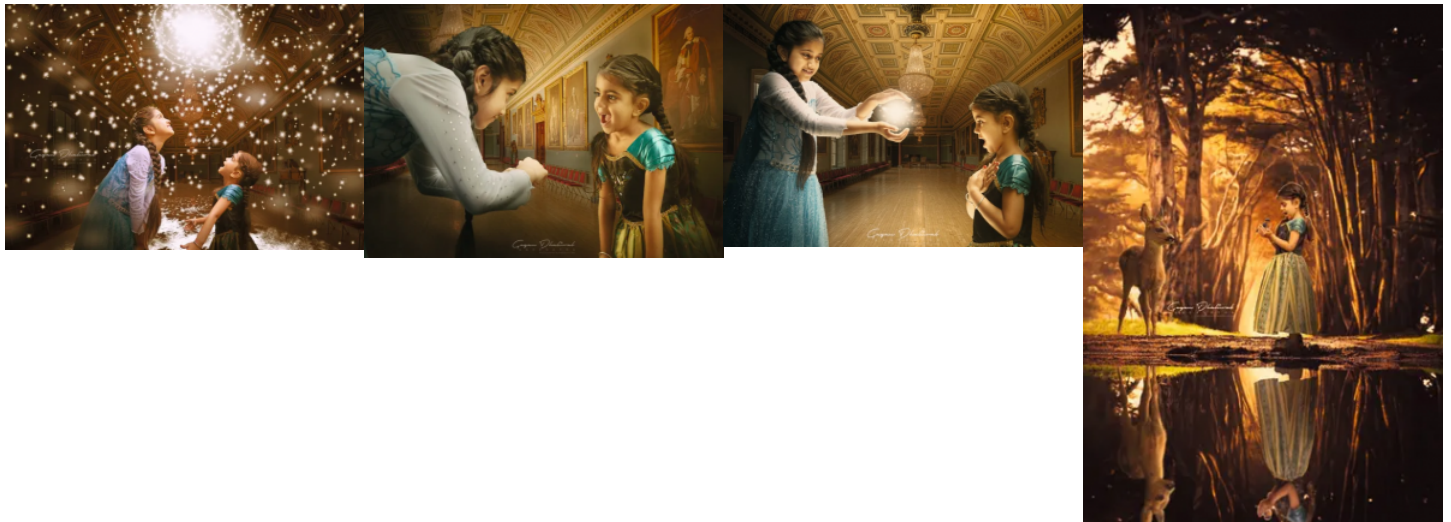

Three years later, when Sehaj was no longer a baby and blossomed into a loving child, she came back to her home, in the UK. The two sisters reunited once again, but they were reserved with each other. After all, they were two strangers to each other, knowing they were related was not enough to have that bond between them. With Frozen being perfect for the two girls, they watched it and dreamed about it

together. The magical wonders of Disney characters brought them closer as they dreamt of being Elsa and Anna (characters from Frozen).

@GNDPhotos turned it into reality with a creative photoshoot. The two girls were beautifully guided by Gagan Dhaliwal during the photoshoot. Harleen described the photo shoot as “the best experience ever!”. The two girls came closer, just as Elsa and Anna did. Frozen movie became a reality when the photo shoot brought the two girls closer. They began laughing “like never before” as their mother explained it. The photo shoot was just the beginning of the dream. The reactions were priceless. They are the Elsa and Anna of the real world.
