

GetSavvi Health: Offering Affordable Medical Cover Plans

Western Cape, Nov 1, 2018 (IssueWire.com) - GetSavvi Health (Pty) Ltd is based in South Africa with the objective of providing health insurance plans to the citizens at an affordable rate. Statistics say that nearly 7% of the total population suffers from diabetes and nearly 1.5 million people need antiretroviral treatment. But, only 13.5% per cent of the population has access to proper medical care. So, [GetSavvi Health](#) proposes three types of health insurance plans that will help the citizens of South Africa to receive proper medical care.

Medical plans offered by GetSavvi Health:

Get Care Plan: The Get Care Plan is focused on the family with only R230 per month. It is mostly a hospital care plan that will cover the costs of a medical emergency. There are also outpatient hospital benefits that include the first-aid service. If a case of stabilisation in hospital arises, then the beneficiary can receive up to R17,500 per annum. GetSavvi Health also offers personal hospital benefits that include in-hospital treatment and associated services.

Primary Care Plan: The beneficiaries will receive day-to-day costs through the Primary Care Plan offered by GetSavvi Health. The company does not charge any joining fees. The plan supports visits to the dentists and doctors, black-and-white X-rays, and HIV and STI blood tests. The Primary Care Plan also covers the costs of the funeral and accidental deaths. This plan costs only R520 per month for a family and R315 for an individual.

Primary Care Plan+: The Primary Care Plan+ caters to both families and single members. For the family, it is only R700 per month while for individual beneficiary it is only R425 per month. The day-to-day benefits include unlimited GP visits, basic and emergency dentistry, blood tests and X-rays, and chronic and acute medication. The hospital plan under the Primary Care Plan+ covers emergency

casualty, emergency stabilisation and personal accident benefits.

The Netcare 911 emergency hotline of GetSavvi Health is always active and the highly skilled team works round the clock to assess the nature of the patient's emergency and dispatch an ambulance to the exact location. The company also provides telephonic health advice throughout the year that includes stress management and trauma debriefing.
