

Hills Self Storage Introduces Special 50% off on 2 Months Storage

Sydney, Nov 17, 2018 (Issuewire.com) - [Hills Self Storage in Sydney](#) offers 50% off for the first two months on select self-storage sizes across its four locations viz. Castle Hill, Galston, Kings Park, and Rouse Hill. If anyone wants to use self-storage for at least two months or more, then they can avail this offer and save flat 50% charges for the first two months.

Hills Self Storage Director, Gavin Koorey, said, "This is an incredible offer for customers; all they need to do is select the self-storage facility nearest to their residences and sign up for a minimum of two months of storage and they can avail this offer. Though this special 50% discount is available on select sizes only, yet many will benefit from it".

Further, he stated, "Hills Self Storage endeavors to have competitive prices for all its storage units across its locations and this special discount is on top of that. Clearly, the customers are the winners with some fantastic prices, a fabulous discount on self-storage units, and convenient locations to select for their storage needs".

About Hills Self Storage

Hills Self Storage is a family owned and run business based out of Sydney providing premium service and affordable self-storage solutions. Hills Self Storage's facilities are situated in Galston, Castle Hill, Kings Park, and Rouse Hill respectively. The range of self-storage solutions includes personal storage, business storage, [car self storage](#), boat and caravan storage, shipping container, as well as, wine storage. In addition, Hills Self Storage provides flexibility to its customers to upsize and downsize its storage units anytime. Long-term and short-term self-storage is available, and customers can take the benefit of free pick up service, free trailer hire service, and free trolleys. Besides, the existence of knowledgeable and experienced staff to offer the best advice is phenomenal. What's more, Hills Self Storage's facilities are equipped with cutting-edge technology that includes separate security padlock (for every unit and the customer can keep the key of their storage unit), pin security gate access, 24-hour camera surveillance, alarmed and monitored buildings and units etc.
