

Laywell Beds announces the launch of its new website

Leading online retailer of bedroom furniture Laywell Beds, launches a new website to make its products more accessible to customers across the UK.

London, Nov 29, 2018 (IssueWire.com) - Laywell Beds has announced the launch of its new website as part of the company's goals of helping families have a good time in their bedrooms by providing them with a wide range of quality mattresses and fabrics their match their personality. It provides a wide range of products including Sleigh Beds, ottoman beds king size, Hand Stitched Mattresses, memory foam mattress double, and upholstered beds at remarkably affordable rates.

The bed is one of the most important items in a home as it ensures that the homeowners and other such occupants have a good rest and are able to perform optimally. Unfortunately, quality beds are not readily accessible to customers as most of the affordable products are either overpriced or fail to meet the desired standard. This is where Laywell Beds is looking to make a huge difference in the market.

In addition to offering a wide range of products, Laywell also allows customers to choose their desired fabric and colour, ensuring that they do not sacrifice their style and personality for quality. Other unique offers from the store are free delivery, free assembly, and free disposal; with a 0% interest-free credit Buy now pay later option. Each high-end luxury product from the online store also comes with a standard 10 years Snooze Sleep brand manufacturer warranty.

More information about Laywell Beds and the amazing products offered can be found on their [website](#). The online retailer is also available across several social media platforms including [Facebook](#), [Twitter](#), [Instagram](#), and [YouTube](#).
