

Tribal Film Festival's Native American Heritage Month Celebration November 17th 2018

Tulsa, Dec 30, 2020 (IssueWire.com) - [Tribal Film Festival](#) increases Native American representation on a global scale. They are the first film festival in the world to tokenize and be built on BlockChain with their own currency, TribeCoin. With premium film status and live event workshops four times a year, they touch audiences with their values, culture, and customs. Our commitment to diversity, inclusion, and equity can be experienced throughout our organization and brings the world of cinema to Oklahoma.

This female lead festival showcases unique stories of unparalleled importance that celebrate the Native American experience and educate others in high tech, such as AR (Augmented Reality) and BlockChain. Their partners, past and current sponsors include Muscogee Creek Nation, Osage Nation Foundation, River Spirit Casino, Tulsa Indian Club, and Oklahoma Film and Music.

[Celia Xavier](#), the Founder, and Executive Director, is "so proud to present Native films, creating a festive event and celebrate a job well done with filmmakers." She is grateful to work next to partners Mary Aboud, Co-Director and Ruth Bible-Ingram, head of Sponsors.

[NASGO](#) is a platform that has decentralized networks that make it ideal for opening up several opportunities to conduct e-commerce with the [global technology BlockChain](#). It is immune to a single point of failure. The platform connects publishers and developers such as the Tribal Film Festival to a community of global client, whose source of joy comes from solutions that are simple and easy to use. The dAPPS store by [NASGO](#) will provide the Tribal Film Festival with unmatched access to a huge database of supporters in a decentralized way.

[NASGO](#) can provide a client solution that is simple to use. This enables the Tribal Film Festival to issue a BlockChain asset without necessarily having to write a code. As a user on the NASGO platform, the Tribal Film Festival can trade these assets with the NASGO tokens, which are able to move from the sidechain in a decentralized manner.

ShareNode, powered by NASGO, has developed technology that brings businesses and customers together through blockchain technology through a Global Referral Network.

ShareNode masternodes provide the computing power to process the transactions of crypto currency without drawing on large amounts of energy that is destroying our planet.
