

## A Better World Starts Here | GrowME Marketing Charity Event

**Calgary, Alberta Apr 2, 2025 ([Issuewire.com](https://www.issuewire.com))** - The message of hope is near and dear to our hearts. Only five short years ago, the founders of GrowME Marketing found themselves, along with countless others, unable to find jobs in the midst of one of the worst economic recessions in Canadian history. Beneath the dark cloud of depression, a seed of hope was planted, and GrowME Marketing was born.

### **What We're Grateful For**

We've come a long way since then; our team has nearly doubled in size every year since, and we're blessed to see continual growth in our business. As we reflect on what we are most thankful for and cultivate a culture of daily gratitude, we have thought about what we can do to give back and how we can share the message of hope and resilience that is so dear to us.

### **Something to Celebrate**

In celebration of the Christmas season and GrowME Marketing's 5th anniversary, we are celebrating where we've come from and where we're going. On Wednesday, December 19th, 2018 our team will be setting up stations at three different locations around the city. You can find us outside the Calgary Drop-in Centre, the Mustard Seed and at the heart of 17th Ave. At each booth, we will be distributing care packages full of essential supplies to the homeless and helpless. As we offer warm beverages and engage in friendly conversation, we seek to give hope, help, and happiness to those who need it.

### **Better Growth Starts Here**

At GrowME Marketing, we abide by the motto, "Better Growth Starts Here." Not only do we believe in the power of digital marketing and website design in launching your business to the next level; we also believe in the power of people coming together to help others.

### **A Better World Starts Here**

Perhaps it's because we have come from humble beginnings ourselves, or because the size of our hearts and the size of our team continue to grow, but we feel a particular drive to spread the cheer and help others who are less fortunate this year. After all, better growth, a better future, and a better world all begin with building better communities.

### **Message of Hope**

Our initiative will run from 12 pm until 3 pm on December 19th. We look forward to talking with individuals who are experiencing the continued hardships of the recent recession and sharing our story with them, establishing GrowME Marketing as a beacon of hope and a testament to the power of giving.
