

AWT Logistics are set to open up 47 houses with 220 rooms in Gardendale, Texas

AWT Logistics, LLC , a new player in Work Force Housing game, announced today that it's first oilfield housing project.

Houston, Dec 16, 2018 ([IssueWire.com](http://www.IssueWire.com)) - AWT Logistics, LLC, a new player in Work Force Housing game, announced today that it's first oilfield housing project " Iron Horse Lodge" is on schedule to open in January 2019. AWT Logistics was founded by Oil Industry Executives and a Major Houston-Based Engineering and Construction Group with a clear understanding of today's oil and gas employers need to house workers as part of an employee retention strategy.

Iron Horse Lodge is situated on 20 prime, quiet acres just 12 minutes north of Midland Odessa Airport, and is centrally located between Midland, Odessa, Goldsmith, and Andrews. The vision behind Iron Horse Lodge is low-density housing where no more than 14 structures with a maximum of 6 bedrooms are placed on a 2-acre lot. " We are well capitalized, and can easily go buy more property to develop, there is no overpopulate a plot of land" AWT Logistics, CEO and Developer Scott Rettberg explains... " besides its a safety issue he went on to say, quality rest, and relaxation in the 12 hours these guys aren't on location makes them much safer workers when they are"

The Iron Horse Lodge location will have 220 rooms available in January and most likely 450 rooms by the end of Q2 2019, at which point it will move down close by to develop another property. The amenities include breakfast and dinner service by Wolfman Catering, a full-service gym, flat screen TVs in every room, High-speed WiFi due to it own run of fiber optic cable, DirecTV, in conjunction with being situated in a rural and quiet local area void of heavy truck traffic at night. Finally, a dedicated team of customer service professionals is on duty around the clock to attend to the needs of any of our guests.
