

Cyanergy- A Clean Energy Council Approved Solar Retailer

Another Milestone

Melbourne, Dec 16, 2018 ([Issuewire.com](http://www.Issuewire.com)) - Cyanergy Pty Ltd is very excited to announce that we are now one of the Clean Energy Council's Approved Solar Retailers. You can find us in <http://www.solaraccreditation.com.au/retailers/approved-solar-retailers.html>

This is indeed a milestone as it reflects our commitment to continual improvement. This Solar PV accreditation gives us access to continuous professional development and technical support to ensure the best possible standard of Solar PV installations in the states where we operate namely NSW and Victoria.

Becoming accredited with the Clean Energy Council means our solar PV installations are eligible for government rebates such as Small-scale Technology Certificates and feed-in tariffs. Clean Energy Council Approved Retailer accreditation ensures that Cyanergy operates on the highest quality, safety and reliability standards on our solar PV system in order to meet the industry's best practices.

Along with this accreditation, we are pursuing a commitment to continue to deliver excellence with our LED Lighting products and installations. This respectable tick of approval affirms our focus on improving customer satisfaction and greater business efficiencies.

Cyanergy Pty Ltd is a privately owned and operated Australian company working since 2009. Cyanergy is operated under a single director who has more than 10 years of energy industry experience and deep knowledge of the Australian energy market. Being an Accredited Company, Cyanergy is steadfast about providing superior quality products, matched to our customer needs as part of NSW ESS, Victorian Government's VEU and Central Government's RET schemes to increase energy efficiency renewable energy solutions; and, helping to create a more sustainable Australia.

It's an important milestone on our journey from a start-up ten years ago to now Australia's leading full-service end-to-end LED and Solar installation company.
