INVECAS announces ISO 9001:2015 certification

Hyderabad, Dec 19, 2018 (Issuewire.com) - INVECAS Technologies (“INVECAS”), a leading silicon-proven IP and ASIC Solutions provider for Advanced Process Technologies along with Embedded Software & System-Level Solutions is now an ISO9001:2015 certified company. The Quality Management System of INVECAS covers Design Development, Testing, and Delivery of Silicon proven IP and ASIC Design Solutions.

INVECAS Design Centers at Hyderabad and Bengaluru went through the implementation, auditing and certification processes of Quality Management System. “This certification is the cumulative effect of the hard work put in by the teams. This is but one more step in our endeavor to reach the heights we have aimed for,” said Dasaradha Gude, Founder & CEO of INVECAS.

Quality Management standard ISO 9001:2015 incorporates improved prerequisites of responsibility, authority, customer-centric, risk and opportunity administration. The implementation of the ISO 9001 standard across the entire business will help INVECAS enhance and maintain the highest levels of Quality that today’s business environment demands, and through the ongoing Internal and External quality auditing programs it is envisaged that INVECAS will be able to ensure that clients are always in certified safe hands.

The ISO 9001:2015 certification will emphasize the rigor of processes and focus on continuous improvement thereby assuring clients that INVECAS operates in an environment that has an industry standard quality management system and thus INVECAS seeks to continually strive to maintain and improve its processes that shall set it apart from other market players.
