

Lets Lend a Helping Hand and Usher in Christmas!!

Giving for Good Initiative

Jaipur, Dec 26, 2018 (Issuewire.com) - Giving isn't about making a donation; it's about making a difference. And Team Fullestop is all set to make that difference.

One of the leading Digital Agencies in India with footprints in the UK and Thailand, Fullestop is a 16-year-old firm that has been catering to a diverse global clientele. With a professional and seasoned team steered by a seasoned management team at the helm, the company offers a range of IT services, Which include Web and Mobile applications, Workflow applications, Blockchain, and AI Technologies development.

Come Christmas, the team at Fullestop has taken up the initiative of raising funds for charity. They Call it the "Giving for Good". Team Fullestop is giving away a thousand hours of services (in 10-hour work slots) and not charging a single penny for the same. Business owners can use these hours for their Digital Assets' audits, code reviews and an analysis of their competitive landscape. All they ask in return is that once the service is delivered, the recipient of the service donates an amount to a charity of their choice and sends across the proof of payment. There is no obligation as well for the need to make a payment to the charity. It will be fully on the choice of the business owner who takes up on this offer.

In conversation with Ashutosh Upadhyay - the chief operating officer, as to what motivated the team towards this philanthropic drive, he says, "We, At Fullestop believe in collective good. A team of 200 people is coming collectively together to try and make a small difference. Even if we are able to bring a smile to a single person, I think we would have done our bit here. In process of doing so, we are involving our friends who have worked with us before and who have contacted us for work. We also welcome business owners who would like to become part of this initiative". If you do not have a charity in mind, they recommend Round Table India - which has been, over the years doing an excellent job at

providing infrastructure for schools across India.

Ashutosh and Team [Fullestop](#) are keen on not just being a part, but adding a righteous perspective to the world we live in today. They are quite optimistic about their #givingforgood initiative, and if you too share the same spirit as them, click on this link - <http://givingforgood.fullestop.com/>
