

QRS Offers Unique Solution to Big 3's Challenging Future

Detroit, Dec 31, 2018 (Issuewire.com) - The times are changing and the Big 3 automakers are at the beginning stages of defining a new direction. [Ford](#), [Fiat Chrysler Automobiles](#) and [General Motors](#) - also known as The Big 3 - made the way for mass production of the American vehicle over a century ago.

In days gone by Ford, Chrysler and GM dominated the auto industry as they manufactured more cars and made more money than any other automaker in the world. At one time Detroit was the automotive capital of the world but that is not the case anymore. Volkswagen, Toyota, and the Renault-Nissan-Mitsubishi Alliance seem to be leading the auto industry pack.

The brilliant team at Quality Resolution Systems (QRS) will not disappoint as they can provide the unique solution to the challenging future for Ford, GM, and Chrysler. For starters - [QRS](#), understands exactly what is required in order to restructure the auto industry into a more connected electric and autonomous auto industry.

But the prosperous future for the Big 3 is not only electric and autonomous vehicles - the future of the sedan will be a memory of the past with more of a focus on the sports utility vehicles and trucks. Even though surveys have shown millions of environmentalist demand more electric cars, within the privacy of the dealerships' showrooms, the gas-guzzlers are getting more of the sales.

It should come as no surprise that the auto industry has been seeking a new direction for the future.

Statistics have shown that Americans are turning away from small cars and sedans with a high preference for large sport utility vehicles and roomy dual cab trucks. With that being said, Tesla has gained immense attention with their self-driving line and premium electric vehicles.

What does this mean for the future of the Big 3 automakers? We know the direction, what is the solution?

The wise and experienced team at QRS understands there is a broad learning curve for the Big 3 and QRS offers realistic feedback regarding ALL of the vital changes that must be met in order to succeed.

QRS provides a complete analysis of each of the Big 3, identifying where the gaps are evident, defining what is required. QRS creates 3-D dimensions with an expert to assist and direct the Big 3 toward the [People – Process – Products](#).

Employees of the Big 3 will visit the current assembly factory as they are instructed and trained through the QRS Elevation Group with a thorough analysis. Their effective methodology encourages a productive direction for all staff while also being realistic of job duties. Being overworked and under-appreciated only reduces staff morale and the experts at QRS know how to avoid burnout, which has been proven to spread poison throughout a team. Review the expertise of [QRS](#)– it will be time well spent.

QRS realizes the times are changing and automakers do not want to be left out in the cold. Elevate. Get back in the game.
