Victorville, Dec 31, 2018 (Issuewire.com) - In spite of several ground-breaking research and solutions that are reported to treat the life-threatening disease cancer, Still scientists and medical experts regard cancer as one of the most deadly diseases that has a lower level of success rate as compared to other diseases. Amidst these researches, an alternative medical solution that has been discovered by California based marijuana activists Mr. Rick Simpson has stood as a boon to cancer victims. Mr. Rick Simpson's remedy is not an expensive treatment or therapy, but an oil extracted from cannabis. Named as Rick Simpson Oil (RSO), this product has not only cured Rick's own skin cancer but has given a new life to an eight-year-old little girl Maia who has been diagnosed with [brain cancer](#) at the age of 4.

Maia's inspiring story will bring a ray of hope for all who are battling the deadly disease. She was diagnosed with stage 4 brain cancer for which she has undergone surgery. The surgery was not very successful as she could not move her arm and left leg. Her health also started to decline rapidly as she could not sleep or eat. Maia's family was asked to prepare for the worst as doctors also said that chemoradiation would further worsen her health.

It was Maia's uncle Felipe who discovered [Rick Simpson Oil California](#) after conducting research on different alternative medicines to cure cancer. The oil is higher in concentration, viscosity, and quality in

comparison to similar products. Just within a year, Maia started to show signs of recovery. She takes RSO in a form of a capsule at night before sleep that also helps her to sleep well.

Today Maia is eight years old and leading a normal life just like any other girl of her age. She goes to school, enjoys playing with friends and spends quality time with family. Maia's parents are very satisfied with the Rick Simpson Oil protocol and have recommended buying [RickSimpson Oil for sale](#) for patients battling with this disease. This amazing testimonial should compel people to consider the power of alternative medicine and treatments.
