

Think Exam introduces new features on their assessment platform

Think Exam is one of the most efficient online test platforms has been upgraded to a more advanced version making a much sought after choice for new clients and an added advantage to our existing clients.

Noida, Dec 28, 2018 (Issuewire.com) - [Think Exam online exam platform](#) is a renowned product of **Ginger Webs** that has been automating assessments for a decade. Trusted by 2000+ clients from around the globe, Think Exam is one of the most efficient **online test platforms** that regularly get updated to suit the changing demand of tech-world. Recently it has been upgraded to a more advanced version making a much sought after choice for new clients and an added advantage to our existing clients.

What to look for in the upgraded version?

Question pooling- Earlier Quiz making was a hectic task but not anymore! By introducing “question pooling feature” in think exam we have ensured question building task to be a seamless endeavor for you.

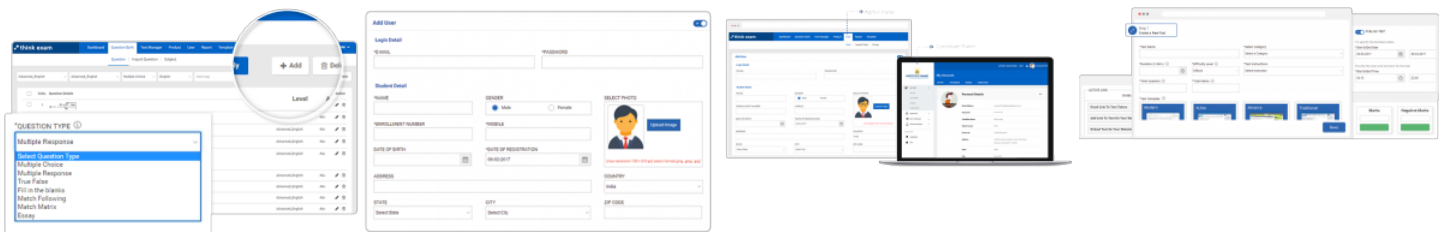

Integrated student report- Earlier administrator had a restricted approach to the candidate test report but now you can have a clear “question wise report” that will give you the ease to procure in-depth analysis.

Word Parser- Earlier uploading questions via "Excel" was too mainstream. Think Exam gives you ease to "Upload your entire question bank by importing word file". You don't have to type the questions one by one or only depend on importing from excel. You can easily type your elaborated questions in word format and directly import it on the platform.

Swift Login with Facebook- Earlier filing details every time was too monotonous. Think Exam is now available with the feature of "Facebook Login" that gives you quick access to your account. Now you don't have to fill each and every detail, again and again, you can simply log in at once without wasting your time.

Bookmark- Bookmark is a pivotal feature, that thinks exam has created keeping in mind the convenience factor that enables you to pin the questions that require later review. You can anytime look back to the questions without losing a tap on them.

These are just the highlights of what we have added for your convenience. After using **Think Exam** you will know what the actual benefits are of this **online exam software** and how it can ease your exam conducting process by far.
