

Waiterio POS - An Easy and Innovative Tool for Restaurants and Bars

London, Dec 31, 2018 (Issuewire.com) - Restaurant and bar owners often struggle with order management and not all of them can afford overpriced POS apps, which is why Waiterio is stepping ahead as an economical and easy-to-use solution.

Waiterio is a [restaurant point of sale system](#) that comes with a host of exciting features. It is one of those apps in the market that facilitate the fastest way to handle orders and streamline other restaurant operations.

Aiming to make the life of chefs and waitstaff easier, Waiterio is easy to use and install. The orders can be taken in a matter of a few seconds, which can then be forwarded to the kitchen instantly. It eliminates the chances of a waiter fumbling around with a pen and paper, getting the order mixed and making the customers grumpy.

The best part about Waiterio it is an affordable POS unlike most of its counterparts. It is an ideal choice for any restaurant, cafe, pub, bar, bistro, deli or a pizzeria. Also, the initial set up is quite straightforward so you don't have to spend a lot of time configuring it for your business.

With Waiterio by your side, you can take orders quickly, create different menus, invite co-workers to manage it with you, receive payments, print invoices and generate financial reports.

This restaurant POS app can be used on desktops, mobiles, and tablets. To download, visit Google Play Store, Windows Store or Apple App Store. For details about pricing and installation, visit: [Waiterio POS Restaurant POS Bar](#)
