South Holland, Jan 3, 2019 ([Issuewire.com](http://www.Issuewire.com)) - While losing weight is something that is broadly socially accepted and many safe options are available, people who would like to gain weight often face a much greater challenge. Stepping up to answer the call has been the Dutch-owned [Apetaminstore Rotterdam](http://www.ApetaminstoreRotterdam.com), who through 2018 have built a shining record for providing the best in apетamin, a syrup-like health supplement that has been shown to safely and often dramatically boost user's appetites and help them gain weight. In exciting news for 2019 and beyond, Apetaminstore has announced that they have added a number of other superfoods to their catalog as well as now also being an elected sales-partner with the European leading direct sales company LR Health & Beauty.

"We are very happy to both expand our catalog along with now working with direct sales leaders LR Health & Beauty," commented a spokesperson from Apetaminstore. "This is only possible due to all of the support from our loyal customers and we look forward to continuing to bring them the best in 2019 and beyond."

Some of the superfoods, in addition to the appetite and weight boosting apетamine, include highlights like Aloe Vera Drinking gel; Peruvian Black Maca Powder; Guarana Powder for heightened energy; and Mind Master Extreme Powder, to name just a few highlights.

The Apetaminstore Rotterdam is widely recognized as the number one source for apетamin in Europe.

The Feedback for the online store continues to be positive across the board.

Bouchra, from the Netherlands, recently said in a five-star review, “Finally a product that really works! In a span of a month, I have gained three kilograms.”
