

Go Paint Sprayer with Mr. Peter Levick - The One-Stop Venue for DIY Spray Paint Enthusiasts

Oakland, Jan 15, 2019 (Issuewire.com) - The idea of painting your own house might seem quite exciting. Wielding a roller or brush can be fun until you have a right idea about handling them. And most importantly, painting a room in your house means a lot of efforts, dedication and time investment. Especially brushes can be quite difficult to handle when space is large and you are not a professional. Likewise, while rollers lay down a thick coat yet it is difficult to apply the paint evenly with perfection.

The easiest and natural solution to the above options is a paint sprayer. And if you are a DIY enthusiast, nothing can beat the comfort and easy that a spray paint offers. If you are planning to paint your house, Mr. Peter Levick, a DIY painter, spray paint user and expert in this domain has come up with easy and excellent tips about spray paint models in the website *Go Paint Sprayer* that are the best for beginners as well as experts. This website features on the best products for spray painting and also real reviews that Peter and his friends have shared after their own experiences.

According to Peter, the thumb rule to become a good spray painter depends on which model you choose. After many experiences, he has been able to recommend five spray paint that he thinks delivers an effortless outcome. The first product *Graco Magnum 262800 X5 Paint Sprayer* is an ideal one for DIY use as it is lightweight, very flexible and comes with easy storage features. The second one he recommends for homeowners is the *Graco Ultra Corded Airless Handheld Paint Sprayer 17M359*. It is also lightweight and a very portable spray. One of the key benefits of this product is that it consumes less paint and assembling it is very easy.

The third product that Peter recommends for amateurs is the *Graco Magnum 262805X7 Paint Sprayer*. It is a great one for heavy duty lovers of DIY painting projects as it is light in weight. Whether you are thinking to give coverage to the interior walls or fences in the outdoor, it is undoubtedly the best one. For all who have large areas to paint, Peter recommends *HomeRight C800879 Power-Flo Pro 2800*. The USP of this product is that it can spray 5 gallons of paint in only 20 minutes. Again, it is also very light and flexible.

Last but not least; Peter considers another model *Wagner 0518050 Control Paint Sprayer* as a very good pick for the DIY painting lovers. It is a fantastic spray for thin materials such as stains, urethanes, sealers, varnishes etc. Designed for both indoor and outdoor uses, it features three spray patterns and a variable- control trigger that offers ease while painting.

Mr. Peter takes the pride to share their success stories in through the platform of Go Paint Sprayer. His passion for painting and using these versatile and state-of-art spray painting tools continues. This website is an outstanding place for DIY painting lovers and with its genuine information, Mr. Peter and his passionate team has joined the bandwagon to promote DIY spray painting to enthusiasts all over the world.
