

## Introducing POWEREDX - a co-building program that aims to Empower Entrepreneurs

Creating Value by Empowering Entrepreneurs, who genuinely seek to improve existing products or services, our lives or even our world.

**YOUR IDEA.  
OUR EXPERTISE.**

**PoweredX**  
Empowering Entrepreneurs

**Noida, Jan 29, 2019** ([Issuewire.com](http://Issuewire.com)) - Nickelfox Technologies launched its special initiative to create value for entrepreneurs and startups - [POWEREDX!](#)

PoweredX is a unique co-building program for thinkers/entrepreneurs/startups who have great ideas

that could potentially make a difference to our world; and require technical expertise in developing their app, web, digital products and/or services.

The brain behind the concept, Niles Ukey, founder [Nickelfox Technologies](#), says - 'Having worked with startups early on, I have seen many great ideas fail due to a lack of technical expertise to execute them. We felt we could support great ideas by freely sharing our expertise in multiple current and upcoming technologies.'

Read the [PoweredX Philosophy](#) here.

How will the POWEREDX program work?

The POWEREDX team will select ideas from the various submissions, then refine, develop and implement the product up to MVP stage. The technical team comprises some of the best designers, developers and product architects, and are supported by industry experts, in case of any requirement for guidance. The entire process, after an idea has been selected for development, will take place remotely, and be completed in 3-4 months, freeing up that time for the entrepreneur, to work on other related tasks, investment and outreach programs. See the [Program Timeline](#) here.

PoweredX is currently accepting [Idea Submissions](#), up till 15th February 2019.

[Here's](#) why the PoweredX program may not be what you are looking for.
