

## Las Vegas Stars Celebrate the Grand Opening of CBD, Crystal, and Herb Store

MTV's Jenn Harley, Bravo TV Personality and Beauty Expert Heather Marianna, and Celebrity Physician Dr. Shiraz "The Booty Doctor" Farooq attend Owner Ashley K.'s Grand Opening of Hacked by Nature

# HACKED BY NATURE™

**Las Vegas, Jan 23, 2019 ([Issuewire.com](http://Issuewire.com))** - Saturday was an explosive afternoon at Hacked by Nature's Decatur Blvd location. On January 19, 2019, Las Vegas' First Black Female CBD, Crystal and Herb store owner Ashley K. Shift, cut the ribbon at her star-studded grand opening. With more than 100 attendees, and a barrage of press, Ashley K. was among CBD elite; Dr. Shiraz "The Booty Doctor" Farooq and friends MTV's Jenn Harley and Bravo TV Personality and Beauty Expert Heather Marianna.

Ashley K. introduced Las Vegas to the tools needed to get in tune and connected with nature. Whether it's sage, candles, rose quartz crystal, or a class, Hacked by Nature has a variety of products & services to help one achieve mental, physical and spiritual alignment and is sure to be Las Vegas's "go to spot".

*"Oh my gosh! I'm blown away about everything in this store from the products to the layout, to the owner. I'm going to go broke in this store,"* said Amanda Cruz, a local spa owner.

*"I love the custom made all-natural candles. They smell so good and some of them even double as body oil when melted,"* claimed dental hygienist Jade Mitchell.

Nearby local business owners stepped up to the plate in true entrepreneurial spirit to lend their support to the success of Ashley K.'s business grand opening. Las Vegas' eatery VegeNation in neighboring Henderson, NV sponsored the event's cuisine with their delicious vegan sliders.

"I'm grateful for all of the support Hacked by Nature has received and I'm so excited to have had the opportunity to officially introduce the people of Las Vegas to my vision, a place that connects both their spiritual and wellness needs," said Hacked by Nature owner, Ashley K.

The official grand opening of Hacked by Nature is just the beginning for Ashley K. With the sold out launch of her monthly Shift Kits and being voted Top 100 Women in Vegas in the January issue of My Vegas Magazine, the world is her oyster.

Hacked by Nature is open Tuesday, Thursday, and Saturday 11am-5pm and Friday 1pm-5pm. More information on the company can be found at [www.HackedbyNature.com](http://www.HackedbyNature.com).

## **About Ashley K. Shift**

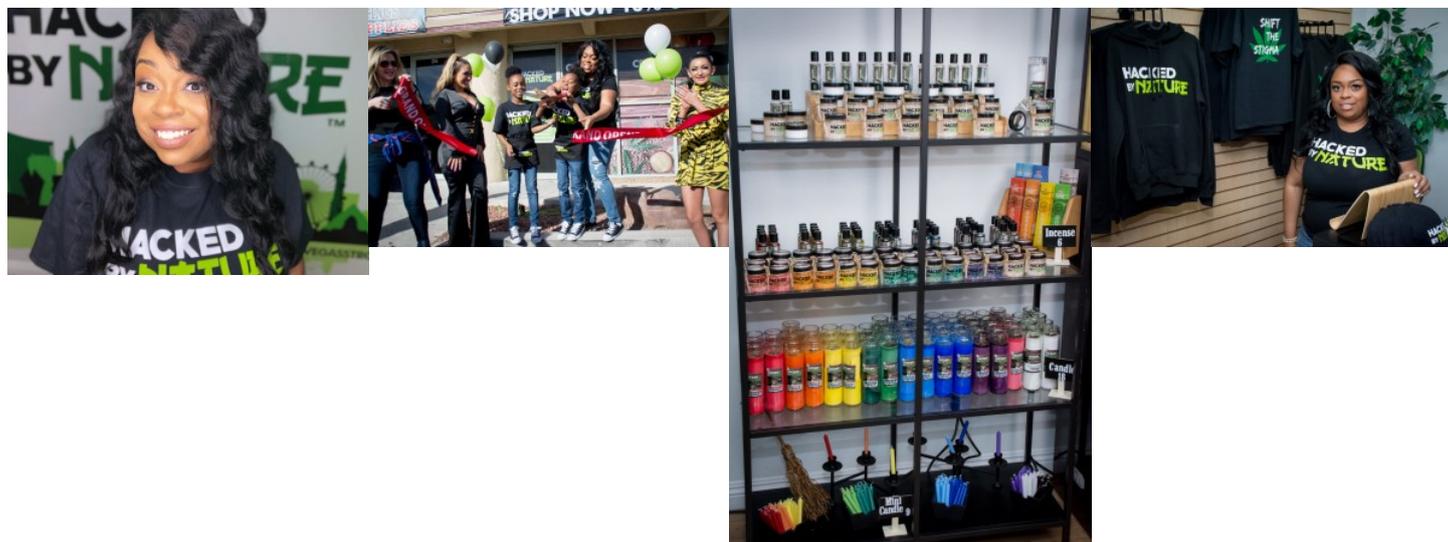

Ashley K. Shift is an entrepreneur, motivational speaker, CBD, Crystal & Herb Educator, Mathematician, and Philanthropist. When it comes to success and how to achieve it, some people look to others for guidance or for advice on what worked for them, Ashley K. Shift understands that there's no need to look any further than within herself. A native of Orange, New Jersey and a single mother of two, Ashley K. holds a Bachelor of Science degree in Mathematical Science. She started her career in the academic field as an educator teaching math in the public-school system. It wasn't long before Ashley K. realized that her love for math and her calling to help people would serve a higher purpose and on a much larger scale.

Stepping out on faith, Ashley K. relocated her family from New Jersey to Las Vegas, Nevada and within a few months she was able to start her own company Hacked by Nature as well as open a store front in the heart of Las Vegas.

In addition to her thriving business Hacked by Nature, Ashley K is a 6 figure earner in the Network Marketing Industry leading a massive global team, called Shift The Stigma. She also continues to utilize her love for humanity and her ability as an educator in Mathematics by leading the I Am the Shift Tour internationally, where she encourages people to step outside their comfort zones to reach their highest potential, "Math is one of the most important things anyone will ever learn in life because it's so relevant in everything we do. Math is about strategy and how to solve a problem. The concept of math teaches us not just how to solve numerical data but how to solve problems in all areas of our lives. With the I Am

the Shift Tour I want to show people that with any problem presented to you it's about strategy. You can always solve the problem. There's always a solution."

In the near future, Ashley K. has plans to open a fleet of tuition free metaphysical private schools where the lunches are vegan, the curriculum incorporates healthy living, and the physical education includes meditation and yoga. When Ashley is asked how does she manage to do it all, her answer is simple, "The answer lies in my name. Shift. I am the Shift. We all are. The only thing someone needs to understand is that they already have all of the answers and everything they need within their self. When you think about the word "shift" and what it means, you think of change and a new level. People just need to understand that they are the "shift". They are the bridge between their old self and their new self. The key is to use that information to step into your next level."
