

## Renowned Artist Perry's New Track 'Catch U' has a Pretty Striking Hook

Those who are looking for some good afrobeat music must listen to Perry's new track 'Catch U'. Instrumentation within the track made it more and more attractive.

**New York, Jan 31, 2019 (Issuewire.com)** - **Perry** is one of the eminent names in the music industry. He prolonged his career by building a group which is formally known as the oneplate and becoming a founding member of oneplatemusic. In the track '[Catch U](#)' he portrays a woman who is very hard to catch, and finally, after catching her, he wants to tell about his friend also. He gathered inspiration for his music from his family, church and his late mother. The afrobeat energy and the lightness of the synths along with the beats, in general, bring a welcomed touch of world music. The track '**Catch U**' evolves through various stages and sections, the instrumental set-up varying to underline this progression and keeps the things interesting. In this track he featured EL.

The instrumentation in the track '**Catch U**' by **Perry** is lovely, light and easy to escape within. His performance is filled with effort and emotion. The unity between the layers creates a smoothness that keeps things moving in a rhythmic as well as satisfying manner. The song '**Catch U**' is surely an early highlight for its concept and the way the track is crafted and arranged within. He is presently working on some singles with some of the top afrobeat artists and also working on his album now. You can also hear to **Perry** other tracks simply by tuning to the most popular site Soundcloud.

The performance in **Perry's** track '**Catch U**' seems to follow its own rules that add inherent sense to

the character. The instrumentation in the track suits the mood and concept really well. The soundscape within the track **'Catch U'** allows his humble yet striking vocals to drive with passion and authenticity. The latter half of the track is blissfully hypnotic one. You can even get more update about **Perry** upcoming music following him on [Facebook](#), [Twitter](#), and [Instagram](#).
