

Royal Caribbean makes the High Seas safer with EVAC CHAIR®

Emergency Evacuation Chair

New York, Jan 7, 2019 (Issuewire.com) - [EVAC CHAIR®](#) North America LLC, maker of the original, lightest and world's best-selling Evacuation Chairs, has announced the supply of their Evacuation Chairs to Royal Caribbean Cruise Lines.

Royal Caribbean, was founded in Norway and is now based in Miami with its vessels visiting over 250 destinations and carrying over 5.7 million passengers each year.

Royal Caribbean is revolutionizing the cruise industry to make every onboard experience one to remember. Whether that's wowing you with their robotic bartenders, dazzling you with a 30-foot giraffe or thrilling you with breath-taking destinations, Royal Caribbean is opening consumer's eyes to a new way to travel. Royal Caribbean also takes safety very seriously is now equipping their vessels with the Evac+Chair, so they are ready for any eventuality.

Jeff Wolvovsky of [EVAC CHAIR®](#) North America added "We are proud of our relationship with Royal Caribbean. [EVAC CHAIR®](#) is the leading provider of evacuation chairs to organizations around the world, including the cruise ship industry. In the event of anyone, whether passengers or crew requiring to be evacuated we have the right solution in the EVAC CHAIR®, which exceeds ADA/NFPA fire safety

guidelines.”

For the last 40 years, [EVAC+CHAIR](#) is the choice for safe evacuation for thousands of organizations including high profile companies such as Apple, Disney, and the NBA. Developed in New York City in 1982, EVAC CHAIR® is the global industry standard for lightweight, portable evacuation chairs.

Today the company sells to large and small venues, corporate entities, residential buildings, as well as globally to hotels, hospitals, office buildings, schools, assisted living facilities, residential and commercial high-rise buildings.

[EVAC CHAIR®](#) can be utilized in any facility where any occupant who needs assistance for any reason can get down the stairs in a safe manner. The design of the [EVAC CHAIR®](#) possesses a narrow profile which allows an occupant to ascend or descend staircases during an emergency without interference. Its unique design allows first responders to assist anyone else with mobility impairments with relative ease.
