

The first all-in-one brand presence builder on the Internet - UNDEV is officially launched!

The graphic is a promotional banner for UNDEV. It features a dark grey background on the left and a bright yellow background on the right. On the dark grey background, the word "UNDEV" is written in large, bold, yellow capital letters with a white horizontal line through the middle. Below it, the words "BRAND LAUNCH" are written in large, bold, black capital letters. On the yellow background, the text "FEBRUARY 15TH 2019" and "4:00 P.M. IST" are enclosed in black rectangular boxes. Below these, the text "LIVE STREAM ON" is also in a black box, followed by the YouTube logo and the word "YouTube" in black.

Mumbai, Jan 24, 2019 (Issuewire.com) - [UNDEV](#), the world's first all-in-one platform dedicated to building brand presence, today launched its web hosting, management, domain registration, marketing & SEO services in the entire world. The new offerings are designed to help the community to quickly setup, build, customize, market and kickstart their business

With 54-second or less provisioning, the UNDEV Hosting Servers allow customers to build, test and re-provision the virtual instances instantly.

"The launch of the all-in-one platform from UNDEV will enable normal public with affordable and intuitive solutions to craft their brand presence and grow their businesses", said **Naman Ambavi, Founder & CEO of UNDEV**. "For India, specifically, it presents a sizeable market for expanded hosting & marketing products. By offering a powerful, yet a simple platform that integrates domains, hosting, e-mails, marketing solutions like Bulk SMS and SEO Services, all the customers can save time and exceed their clients' expectations."

Powered by private custom & purpose-built KVM (Kernel-based Virtual Machine) virtualization, the platform is built to ensure the highest scalability and security for individual developers and technologists to effectively leverage the platforms they know best. Additionally, the SSDs (solid-state drives) across the board and fast I/O (Input/Output) ensures excellent overall performance.

The platform also allows customers to seamlessly manage and maintain new and existing domains and

subdomains. Additionally, by featuring themes, users are allowed to save their configurations and launch new websites with that image in a few minutes, instead of starting from scratch.
