

Unistal Celebrates its Silver Jubilee, Unveils Two New Solutions

🔗 The celebrations brought alive Unistal's 25 years of journey and presented the roadmap for the future 🔗 The company launched two new Solutions, Protegent Enterprise Security Solution – Activity Monitoring & Reporting and SmartGasNet Solution

New Delhi, Jan 19, 2019 (Issuewire.com) - **Unistal Systems Pvt. Ltd.**, the developer, and provider of Antivirus, data care, data recovery, data security software, and Oil & Gas solutions, today celebrated 25 glorious years of serving excellence. The pompous celebrations started at 7 p.m. at the Crowne Plaza Hotel, New Delhi.

The company shared its success stories and recognized the contribution of mentors, employees, partners, vendors, friends, and family for their continuous support. The event was graced by the presence of well-known dignitaries from top corporates, partners, OEM heads and media houses.

On the occasion, **Alok Gupta, Co-founder and Managing Director** at **Unistal Systems Pvt Ltd.** said, *"It is always special to see what you have created turning into a milestone. We feel that completing our 25th year calls for something special. We are taking this occasion as an opportunity to thank all the stakeholders, including our mentors, partners, friends, family, ex-employees and present staff who have helped us in successfully steering through the testing times and achieving this milestone."*

The company also launched two new products, in data security vertical, **Protegent Enterprise Security Solution**, a next level security solution developed to protect data & assets of SME's and large enterprises. In Oil & Gas vertical, **SmartGasNet Solution**, a complete solution for city gas distribution network.

Brimming with pride on this significant occasion, **Pankaj Mathur, Co-founder, and Director** at **Unistal Systems Pvt Ltd.** said, *"It is a day of great pride for us. Our incredible journey is full of emotions, including success and lots of struggle. We are celebrating our silver jubilee in a more unique way with the launch of Unistal's two new products in data security vertical Protegent Enterprise Security solution and SmartGasNet solution for City Gas Networks."*

The event had umpteen employee engagement activities, fun-filled games, motivational addresses by the leaders, along with the launch of two new products. The company also facilitated the ex-employees

and rewarded the existing staff for their outstanding contributions, efforts, and services.

The unique journey of Unistal

From a humble start in 1994, started as a startup than with just 2 employees in a 30 sqft rooftop cabin, the company has now grown to more than 200 members strong team with over 20,000 sqft office space.

In 1994, the company developed Data Recovery products and gets Prime Minister's Office as the first client. In the next five years, the company built a strong portfolio by rolling out new products like Crash Proof, Quick Recovery, Data-Wipe, One Click Restore. Among these products, Crash Proof was one of the highly anticipated product and Unistal has been chosen as an OEM with big companies like HCL, Wipro and Acer for this product. At this time, Unistal was popularly known as 'Data Doctors' among users.

In the next six years(2000-2005), the company achieved many new milestones and expanded rapidly across the globe. The product portfolio increased from 4 to 15 and the company extended its presence with 5 new branch offices including one in the Middle East. The Quick Recovery software was introduced for various platforms like Linux and Novell servers along with Quick Recovery for file repair, file recovery and email recovery. The licensed user base has now grown to 5 lakh for Unistal's range of products.

This was the time when Unistal took a major leap and decided to enter in Oil & Gas vertical.

The coming years were the golden phase for Unistal, in this period (2006-2018) Unistal witnessed the formation of JPAC with Chirag Shah joining the two founders Alok Gupta and Pankaj Mathur. The company has seen new heights and had overwhelming success overseas in both the Data Security and the Oil & Gas domains.

Unistal's data security portfolio gets new addition and increased the product count from earlier 15 to 51 products. New products like Port Locker, Laptop Locator, Activity Reporter, an extension of Quick Recovery range, and many others instantly grabbed users' attention and became the first choice in the data security domain. The company had a major expansion in terms of office space, from an earlier 2500 sqft to 20,000 sqft with a new development center in Noida.

This was the period where Unistal's other arm, JPAC Technologies Pvt. Ltd was launched on 14th January 2008 to develop solutions for the Oil & Gas industry. Within a short span of time, it made its mark in India and overseas by working with almost all the major Oil & Gas companies. The company did many prestigious projects in UAE, Oman, Malaysia, Indonesia, Saudi Arabia, and Bangladesh. The success in the domain called for an expansion of services, the company started GIS & Survey services for City Gas and Cross Country Pipelines along with venturing into solutions for water pipelines. JPAC has successfully completed and managing more than 75 projects across India and overseas.

Unistal Today...

In Data Security domain, Unistal today has 51 products with more than 7 million licensed users and 3000 active resellers across India, Middle East and Africa. The company has a tie-up as an OEM with

HP & Acer, a retail tie-up with Dell & Dell Exclusive stores along with distribution tie-up with Supertron. Unistal has also catered to more than 200 thousand data recovery cases including for RAID servers.

In the Oil & Gas domain, the company has completed more than 75 projects and captured around 90% market share in India for Pipeline Construction Management Services(PCMS). The company has also mapped a network of more than 26000 KM pipelines including more than 5000 KM for City Gas Network & Assets and achieved more than 1000 months of PCMS execution experience.

The company is also proud to have given an opportunity to more than 500 Fresh Mechanical Engineers for Pipeline Construction Management.
