

A.I Solve names James Ram, President of The Americas

Las Vegas, Feb 7, 2019 ([IssueWire.com](http://www.issuewire.com)) - A.I Solve, a U.K based technology company known for creating responsive, AI-powered turnkey VR applications and attractions for leisure, entertainment and education has announced the appointment of James C. Ram, President of The Americas, effective immediately. He will have the responsibility of growing the company's operations in The Americas and will report directly to the Company CEO, Devi Kolli.

Ram is a 25-year veteran whose strength is strategic management and operational growth in both the corporate and non-profit arena with a consistent track record in Growth & Profitability, Strategy, Business Development, International Expansion, and Synergetic Partnerships.

“Over nearly two decades, James has built an impressive track record of strategic, operational and commercial accomplishments,” said CEO, Devi Kolli “He has proven to be a successful and trusted leader. James is emblematic of the deep bench strength we have developed at A.I Solve, and I could not be more pleased about his appointment to this critical role at this important time.”

James Ram's leadership experience coupled with his strategic thinking and proven ability to deliver results make him the right person to help execute A.I Solve's strategic priorities and drive sustainable growth,” said Tom Cossuto, CFO at Huddle House.

“Potential of virtual reality is about the convergence of technologies – never about VR itself. AiSolve is a place where I instantly connected with its vision as it offers a natural home for such convergence. The team here are extremely talented and constantly stretch the boundaries of AI, VR and MR be it for entertainment, training or education. I am excited and honored to take on this role and look forward to working with Devi and our talented senior leadership team to deliver on A.I Solve's goals and vision for exponential growth within The Americas,” said Ram.

Ram's detailed bio is available on A.I Solve's website, <http://www.aisolve.com/james-ram/>
