

## Aquacy: Offering Shock Resistant Pro Diver Watches

This press release is related to the Pro Diver Watches. Choose scratch and water resistant dive watch to ensure awesome diving experience.

**Lynchburg, Feb 25, 2019 ([IssueWire.com](http://IssueWire.com))** - Aquacy, US-based Watch Company is offering robust Pro Diver Watches for divers. Our high-end brand of diver watches not only combines class with durability but also nods to a rich history that goes back thousands of years.

The mission of Aquacy is to bring quality watches to the marketplace for watch lovers. Aquacy promises to give watches that will stand the trial of time. Every watch we design comes with desirable features, a rich back-story, and great price points. Our advancing standards along with unique concepts and execution in design are intrinsic aspects to the scope of capability demonstrated in the performance and look of each watch. With such a selection, we always aim to achieve creative and technical revelations from various perspectives.

Strength, good luck and safe travels. Those are the pillars upon which Aquacy was formed. Like the Hei Matau upon which the Aquacy brand is built, Aquacy pledges that every watch will represent strength, good luck and safe travels. Our collections embody an accomplished collective of engineering and design.

[Pro Diver Watches](#) are available in 9 colours. This top of the line brand of watches made particularly for divers not only combines class with durability, but also nods to a rich history that returns thousands of years. We have chosen the superior material to go into your timepiece. Supported by a 4 year Movement warranty Aquacy wants to ensure that you get years of worry-free use out of your new Aquacy Timepiece.

Every Aquacy 1769 accompanies a watertight ABS box with greatly customized foam to fit the watch, free silicone strap (included), premium estimating and strap changing device, warranty card, manual, Aquacy retail hang tag. From swimming to scuba your Aquacy is prepared for anything you toss at it. The Aquacy 1769 features a screw sown crown with 2 Seals and a screw sown case back likewise with 2 Seals.

The logo itself shows a water drop inspired by the Hei Matau, a Maori symbol that speaks to quality, good luck and safe travel across water. The movement features Miyota's "Parashock" anti-Shock resistant technology to ensure your timepiece gives you years of quality service. For our watches, we picked a high review BWG9 Lume that sparkles blue and is known to keep going throughout the night with exact night readability.

About the Company:

Aquacy is a U.S.-based watch company founded by a veteran of the watch industry. With Aquacy timepiece, you get years of worry-free use out of your new dive watch. Every watch we design will have desirable features and a rich back-story. Our watches ensure safe and secure diving experience.
