

Bandhoo Launches Support for Tamil Language

Popular home grown multilingual Indian social platform 'Bandhoo' releases support for Tamil language also. Team bandhoo announces that now Bandhoo will be available in Hindi, English, Marathi, Bangla, Telugu and Tamil languages.

Chennai, Feb 10, 2019 ([Issuewire.com](http://www.Issuewire.com)) - Bandhoo is an app and web-based, Indian social application that connects people across India. Users can share videos, Images, GIFs, #Hashtags, files and can do chatting and play games in vernacular language. Bandhoo also provides cool mind games which are specially designed for students so as to improve their mental caliber and memory skills. The

application has been designed for Indian users and inclusion of Tamil language will enable Tamil loving people to access the platform with an Indian flavour. Bandhoo app is available on Play store free.

Users can create, comment upon hashtags which are created in vernaculars. Bandhoo is a platform where people can start a new revolution in Indian style. Team Bandhoo further said that support for Gujrati and Punjabi language will be announced soon. Bandhoo, in the latest update, has started a special hashtag for valentine day. Bandhoo is a purely Indian built social app and is designed to become an Indian alternative of Global giants like Facebook, twitter, WhatsApp etc
