

Boca Raton Public Adjuster565654

Beach, Feb 13, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Damage from water, mould, fire, smoke, wind, and storms to your home are sometimes unavoidable, especially in Florida. In cases when you need to make a claim to your insurance company, you need a claim adjuster that will help you get everything that you are entitled to. You need a claim adjuster that will have your best interest in mind, rather than looking to save the insurance company a few bucks. Pinnacle Claim Services has locations all over Florida with some of the Sunshine State's best public adjusters to help you make your claim.

Most insurance companies encourage their policyholder to work with their independent adjuster, but your claim will mostly likely be settled in the interest of the company. By working with our service, your claim will be negotiated with your best interests, not your insurance's. One of our Boca Raton public adjusters will gather evidence of the damage and take a physical inventory to ensure that nothing is missing from your claim.

Our adjusters will make sure that your claim is the strongest it can be, so that you can get compensated faster. We ensure that all claims are handled in compliance of your insurance's policy so that it can be processed in a timely manner. Our public adjusters have no conflict of interest when negotiating your claim, unlike your insurance company's independent adjusters. Independent adjusters will try to process your claim in a way that benefits your insurance company, rather than in your best interest. They often try to short-ball you in compensation, so you're left paying out of pocket for some of the damage done to your home. Pinnacle Claim Services can guarantee that our claim adjusters will negotiate to get you all the compensation you are entitled to for your claim.

We can help you process claims to get the best compensation for any type of damage done to your home. Water and mold damage, as well as wind and storm damage occur the most often in Florida. As a result, your insurance will try to short change you, along with many of their policyholders, in your compensation. Some other Florida public adjusters specialize in certain types of damage that occur more often in your area, while ignoring other types of damage. They will often try to charge you more for their "specialized" claim adjusting services, but their higher rate does not equate to higher quality. Our Boca Raton public adjusters have experience processing claims for all types of damage, like fire and smoke and even vandalism and theft damage. Pinnacle Claim Services understands that when your home suffers damage, your family does too. This is why we always get the best for your claim.
