

Brighton Cromwell Displaying at International Defense Exhibition (IDEX), held in Abu Dhabi, UAE

February 17th-21st 2019

Randolph, Feb 12, 2019 ([IssueWire.com](http://www.IssueWire.com)) - The Executive team from Brighton Cromwell (BC) will attend the 2019 International Defense Exhibition Conference (IDEX) held in Abu Dhabi, United Arab Emirates from February 17 through February 21. There are expected to be more than 100,000 attendees from over 140 countries with more than 170 official government delegations. Brighton Cromwell will be displaying parts and kits as their complete aftermarket capabilities at booth 03-B10 in the USA Security & Defense Pavilion.

During the show, the team will interact with delegations from numerous countries, meet with US Government officials, and socialize with international customers. The Brighton Cromwell booth will highlight our trusted business partners, showcase BC's domestic and international coverage, and provide fun featured items in support of the US Military platforms BC supports.

President, and CEO, Rob Van Etten shares that "as the exclusive parts distributor for AM General (manufacturer of the HMMWV), IDEX is the ideal platform for Brighton Cromwell to meet with our current customers and develop new regional partnerships. It also offers a unique opportunity to educate potential customers on how we can lower their costs of maintaining, upgrading, and overhauling their fleet of tactical and armored vehicles while supplying OEM quality parts."

About Brighton Cromwell

Brighton Cromwell, LLC (BC) is a supply chain integrator providing procurement, logistics, engineering, and kitting services in support of US military platforms. As the exclusive parts distributor for AM General, BC supports HMMWV maintenance and repair activities around the world. Additionally, BC is the Exclusive Global Distributor for L3 Combat Propulsion Systems (CPS) making BC the only company that can provide genuine OEM parts which have been proven to extend the life and improve the performance of the AVDS-1790 engines.

BC is AS9120B ISO 9001:2015 certified to ensure only high-quality parts are provided to our customers. BC's corporate headquarters and warehouse distribution centers are located in Randolph, New Jersey with our Engineering department located outside of Tampa, Florida.
