Get to know Dentist Dr. Alvin Daboul, who serves the Royal Oak, Michigan area at his private practice, North Oaks Dental.

**New York, Feb 15, 2019 ([Issuewire.com](http://www.Issuewire.com))** - Dr Daboul graduated in 2008 from the University of Detroit Mercy School of Dentistry. With over ten years of experience, Dr Daboul focuses on implants, wisdom

teeth removal, cosmetic dentistry and Invisalign. He has a team of 20 employees at North Oaks Dental of Royal Oak.

To stay current in his field, Dr Daboul is a professional member of several dental organizations. He opened the North Oaks Dental practice in 2010 and has completed advanced training in using the Chao Pinhole® Surgical Technique, which is a minimally invasive technique that provides instant results and significantly less pain, recovery time, and investment than other treatment methods for gum recession.

Dr Daboul is an advocate of continued education. He enjoys learning about new dental procedures and improving current ones so he can better care for the people of Royal Oak and the surrounding area. He has furthered the field of dentistry by training other dentists in the proper techniques for surgical extractions and dental implants. To better inform his patients, Dr Daboul published a book titled Getting Ready for Dental Implant Surgery. For his exceptional career, Dr Daboul has been awarded a Top Dentist Award.

General dentists provide a wide array of services that are vital to patients' continued health. These services include: preventive services — helping to maintain good oral health by stopping disease before it takes hold in the mouth; restorative services — receiving timely and appropriate treatment when a problem is identified; as well as cosmetic services — performing a range of cosmetic procedures, such as teeth whitening, cosmetic bonding - even porcelain veneers. General dentists also address overall health concerns, as oral health is seen as the mirror of general health. In fact, some dental problems may reflect issues in other parts of the body and vice versa.

Dr Daboul is an advocate of providing care and individual attention to very anxious and frightened patients and watching them become lifelong patients free of dental anxiety. Additionally, he writes blogs for his patients to fully understand their care and treatments. When he's not seeing patients, Dr Daboul enjoys spending time with his wife and four children.
