

## Fingent opens a new office in Australia

The expanded presence in Australia enables Fingent to better serve existing clients and accelerate the growth of Fingent's software development, professional services, and support capabilities there.

**Melbourne, Feb 26, 2019 ([Issuewire.com](http://Issuewire.com))** - Fingent has announced the opening of its new office in Melbourne, Australia on Feb 14, 2019. This move comes as part of Fingent's expansion plan to provide local support to clients, worldwide. Fingent will occupy Melbourne's most iconic business address, Level 27 of 101 Collins Street.

The expanded presence in Australia enables Fingent to better serve existing clients and accelerate the growth of Fingent's software development, professional services, and support capabilities there.

*"Innovation through collaboration is growing in Australia. Almost one in five Australian business actively collaborated with others when implementing innovation in 2018, and we are excited to be a part of this growth. We are optimistic about the new opportunities that Melbourne has to offer."*

### **Dileep Jacob – Head of Global Delivery, Fingent.**

Fingent is one of the leading providers of custom web and mobile software and enterprise integration services in the world. With its development centers in India, Fingent is able to offer software solutions at attractive prices. Its new office in Melbourne will provide clients there the personal attention and timely communications that are so important to successful technology engagements.

"Through our Melbourne office, we will be able to respond to our enterprise clients' needs faster" added Dileep Jacob. "The Melbourne office can take advantage of our global network to deliver personalized services and strategic support for Australia's leading businesses."

Purpose-built solutions provided by Fingent enable businesses to streamline their unique business process while leveraging more business value from existing technology assets. These solutions can transform a client's business system and are recognized as key components driving overall business success. Fingent powers accelerated growth for clients by choosing appropriate technology from among the centers of excellence within Fingent that include: Microsoft technologies, SAP, Mobile, Data Analytics, Cloud Computing, and Open Source technologies, among others. Fingent aims to deliver not just technology solutions, but practices and insights that help transform their clients to industry leaders in an ever-changing world.
