

Flip Tanks Announce Upcoming Kickstarter Launch

All-in-one tank and crop tops are simple and fashionable

New York, Feb 24, 2019 ([IssueWire.com](http://www.IssueWire.com)) - The team at Flip Tanks is thrilled to announce that they will be launching a Kickstarter campaign in late March. Through this upcoming crowdfunding campaign, Flip Tanks is looking to raise the capital and awareness needed to bring Flip Tanks to life for women everywhere.

Flip Tanks are the top of the ultimate tank for active people. The tanks tops can simply be folded over the chest when wearers get too hot to offer a simple and fashionable crop top. Each Flip Tank offers designs on the inside and outside of the design, offering a versatile style. A built-in drawstring lets women adjust their Flip Tank in crop top form and stop the top from falling down.

Each Flip Tank is made with an 85% polyester and 15% spandex blend, making it uniquely stretchy and comfortable.

Each design offers a funny or quirky phrase designed to help keep wearers in a good mood while they are exercising or training. Flip Tanks will be available in a number of designs when they launch.

Right now, the team at Flip Tanks is looking for people to test out Flip Tanks before they go into production.

As part of the upcoming Kickstarter campaign, supporters will have an opportunity to show support for Flip Tanks. These backers will receive some of the very first Flip Tanks ever made in exchange for their pledges.

The Flip Tanks team is excited to bring their unique, fun, and highly practical design to the world with the launch of their Kickstarter campaign in March 2019. More information about the company can be found now at <https://www.fliptanks.com/>, where people can also sign up for updates and more.

About Flip Tanks

Flip Tanks are all-in-one tank tops that easily convert to crop tops.
