Albany, Feb 6, 2019 (Issuewire.com) - A recent report by KD market insights titled as "[Cold Chain Packaging Market- By Material Type\(Expanded Polystyrene \(EPS\), Fabricated EPS, Vacuum Insulated Panel, Polyurethane \(PUR\), Others\), By Product Type \(Phase Change Materials \(PCMs\), Insulated Shipping Containers, Parcel Containers, Pallet Containers, Temperature Loggers, Others, By Application \(Pharmaceutical Packaging, Food & Beverages, Medical Device Packaging, Others\) , Global Region - Market Size, Trends, Share & Forecast 2018-2023](#)" provides the key trends, opportunities and challenges market will face in the forecasted period of 6 years i.e. 2018-2023. The study also provides the Cold Chain Packaging market competitors share and region wise analysis around the globe.

The **global cold chain packaging market** is anticipated to grow at a robust CAGR to reach at a notable value by the end of 2023. The cold chain packages have become an essential part of supply chain management for storage & transportation of temperature-sensitive products. **Further, increasing demand for cold chain packages in pharmaceuticals industry is anticipated to positively impact the growth of market over the forecast period.**

The report begins with an overview for Cold Chain Packaging market. The research report broadly

covers analysis of key market drivers, challenges, opportunities and trends. The study also provides separate analysis to understand market size, projections and macroeconomic indicators of global regions that affects the market share. The report also offers an extensive coverage of various industry players along with their recent product launches and market activities. The report also goes through porter's five analyses for getting a better understanding about the forces that shape competition within the industry. There is a timeline considered for useful analysis i.e. 2017 is considered as base year, 2018 as estimated year and 2019-2023 as forecasted year.

The market is divided into various segments and further sub-segments to drive the useful insights that can be utilized for company revenue growth and business. The **Cold Chain Packaging market** is segmented on the basis of –

By Material Type

- Expanded Polystyrene (EPS)
- Fabricated EPS
- Vacuum Insulated Panel
- Polyurethane (PUR)
- Others

By Product Type

- Phase Change Materials (PCMs)
- Insulated Shipping Containers
- Parcel Containers
- Pallet Containers
- Temperature Loggers
- Others

By Application

- Pharmaceutical Packaging
- Food & Beverages
- Medical Device Packaging
- Others

The research also does a separate geographical analysis that comprises both the region wise and country wise analysis. The geography covered in the report is North America (U.S. & Canada), Europe (Germany, United Kingdom, France, Italy, Spain, Russia and Rest of Europe) , Asia Pacific (China, India, Japan, South Korea, Indonesia, Taiwan, Australia, New Zealand and Rest of Asia Pacific) Latin America (Brazil, Mexico, Argentina and Rest of Latin America) and Middle East & Africa (GCC, North Africa, South Africa and Rest of Middle East & Africa). As per the report, Asia Pacific is likely to be the market giant in the upcoming years.

Considering the competition, the major vendors providing Cold Chain Packaging techniques across the globe are –

- Sonoco ThermoSafe
- Pelican BioThermal LLC
- Cryopak
- Cold Chain Technologies
- Softbox Systems Ltd.
- Snyder Industries Inc.
- ACH Foam Technologies

- Sofrigam SA Ltd.
- Other Major & Niche Players.

These vendors have adopted various types of organic and inorganic growth strategies, such as new product launches, business expansions, partnerships and collaborations, and mergers and acquisitions, to expand their offerings and further expand their presence in the global Cold Chain Packaging market.

Table of Contents:

Research Methodology

Market Definition and List of Abbreviations

1. Executive Summary

2. Growth Drivers & Issues in Global Cold Chain Packaging Market

3. Global Cold Chain Packaging Market Trends

4. Opportunities in Global Cold Chain Packaging Market

5. Recent Industry Activities, 2017

6. Porter's Five Forces Analysis

7. Market Value Chain and Supply Chain Analysis

8. Products Average Price Analysis, By Country

9. **Global Cold Chain Packaging Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023**

10. **Global Cold Chain Packaging Market Segmentation Analysis, By Material Type**

10.1. Introduction

10.2. Market Attractiveness, By Material Type

10.3. BPS Analysis, By Material Type

10.4. Expanded Polystyrene (EPS) Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

10.5. Fabricated EPS Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

10.6. Vacuum Insulated Panel Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

10.7. Polyurethane (PUR) Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

10.8. Others Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

11. **Global Cold Chain Packaging Market Segmentation Analysis, By Product Type**

11.1. Introduction

11.2. Market Attractiveness, By Product Type

11.3. BPS Analysis, By Product Type

11.4. Phase Change Materials (PCMs) Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

11.5. Insulated Shipping Containers Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

11.6. Parcel Containers Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

11.7. Pallet Containers Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

11.8. Temperature Loggers Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023

11.9. Others Market Value (USD Million) Forecast & Y-o-Y Growth Analysis, 2017-2023
