GreenPeas co., a crowd-sourcing platform for Canary Testing of Web and Mobile Apps, announced today that Cofounder Yogesh Kondaskar will be a presenter at the Agile Testing Summit in Denver Colorado on February 14 at the DeVry University Campus.

Houston, Feb 10, 2019 ([Issuewire.com](http://Issuewire.com)) - **GreenPeas co.**, a crowd-sourcing platform for **Canary Testing of Web and Mobile Apps**, announced today that Cofounder Yogesh Kondaskar will be a presenter at the Agile Testing Summit in Denver Colorado on February 14 at the DeVry University Campus. Yogesh will be discussing how Canary Testing is an essential aspect of Continuous Application Delivery.

[GreenPeas](http://GreenPeas) which has been garnering growing attention from tech managers at startups and growth-mode businesses will have their key team members at the event to talk to the attendees and offer live demos. GreenPeas will be coming back to Denver in May for CXImprove event.

The one-day summit is hosted by 1.21GWS which is a Tech Events company organizing local tech summits for Software Testing, Test Automation, Robotic Process Automation (RPA) and Blockchain. The Agile Testing and Test Automation Summit aims to help IT Managers learn, connect and discuss topics around the newest tools, techniques and best practices in Test Automation.

### About GreenPeas:

GreenPeas is a crowd-sourcing platform for Canary Testing of Websites and Mobile Apps. GreenPeas cloud platform connects businesses with Beta Testers who are trained to find bugs and provide usability feedback. While simplifying Continuous Application Delivery, GreenPeas is also creating opportunities for people to learn to test Apps and earn some side income. GreenPeas is providing startups and

growth-mode businesses a better way to improve their customer experience (CX). To learn more, visit [www.greenpeas.co](http://www.greenpeas.co) and follow us on Twitter, LinkedIn, and Facebook [@GreenPeasCo](https://www.facebook.com/GreenPeasCo).
