

Gregory S. Brinton, MD, Ophthalmologist with Retina Associates Of Utah

Get to know Ophthalmologist Dr. Gregory S. Brinton, who serves the population of Utah.

New York, Feb 23, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr Brinton is certified by the American Board of Ophthalmology. He is trilingual and is fluent in English, Japanese, and Russian. Dr Brinton currently practices as an Ophthalmologist with Retina Associates Of Utah and is a clinical professor at the University of Utah School of Medicine. To stay up to date in his field he remains a professional member of the American Academy of Ophthalmology, Utah Medical Association, Utah Ophthalmological Society, Retina Society, and the American Society of Retina Specialists.

Retina Associates of Utah is the largest retina specialty practice in the Intermountain West. All of their doctors are board certified and have completed training at the finest eye centres in the country. Their goal is to provide our patients with the highest quality care in a comfortable, compassionate setting. Their expertise is in the treatment of diabetic retinopathy, macular degeneration, laser photocoagulation, complicated retinal detachments, severe trauma, ocular tumours, and uveitis.

Dr Brinton completed his undergraduate degree with Stanford University. Furthering his education he then graduated with his Medical Degree from the University Of Utah School Of Medicine in 1976, giving him over four decades of experience in his field. He was a member of the Honor Medical Society Alpha Omega Alpha and recipient of the Dean's Award. After obtaining his Medical Degree he completed his internship at Harvard followed by his Ophthalmology residency with the Bascom Palmer Eye Institute. Furthering his training he then completed his Retina Vitreous Ophthalmology Fellowship with the Medical College Of Wisconsin.

Ophthalmology is a branch of medicine and surgery that deals with the anatomy, physiology and diseases of the eyeball and orbit. An ophthalmologist is a specialist in medical and surgical eye disease. Eye surgery, also known as ocular surgery, is surgery performed on the eye or its adnexa by an ophthalmologist. The eye is a fragile organ, and requires extreme care before, during, and after a surgical procedure. An ophthalmologist is responsible for selecting the appropriate surgical procedure for the individual patient and taking the necessary safety precautions.
