He also practices as an Associate Clinical Professor on active staff at the Florida State University College of Medicine.

A Pain Management Specialist is a physician with specialty training and certification in the evaluation, diagnosis, and treatment of all different types of pain. Pain can be caused by a wide spectrum of disorders including musculoskeletal disorders, degenerative processes, cancer pain and sometimes a combination of these. Pain can also arise for many different reasons such as surgery, injury, nerve damage, and metabolic problems such as diabetes. Occasionally, pain can even be the problem all by itself, without any obvious cause at all.

Dr Buchalter has devoted his career to the diagnosis and treatment of Spine-related pain disorders, co-authoring a Textbook on the most common cause of Chronic Back Pain. He can perform precise spine procedures to relieve pain and now has expanded his treatment protocols to include stem cell and regenerative therapies.
