Dubai, Feb 27, 2019 (Issuewire.com) - MySchoolPage.com, one of the premier online tutoring services in the Middle East, has been awarded "The Best Online Tutoring Platform" by the Indian Education Congress.

MySchoolPage.com has completed over 60,000 sessions for students in 30 countries around the world, with a special focus on IB and IGCSE Curriculums in UAE, Oman, Qatar, Kuwait, Saudi Arabia, and Bahrain. There have been constant improvements made to the learning platform being used by tutors and students. This award coincides with MySchoolPage covering over 40 different curriculums. The company edged out other large players to win this award due to the robustness and scalability of their platform and the technologies being used to deliver seamless tutoring sessions online.

MySchoolPage.com has long been instrumental in the education industry in providing very targeted learning for students from various backgrounds. This company understands that a one-size-fits-all approach simply does not work when it comes to online tutoring. Taking full advantage of the nature of the Internet and the far-reaching accessibility it provides, MySchoolPage has built a state-of-the-art online whiteboard and learning system to impart quality tutoring sessions. Their uniqueness stems from the fact that they follow the guidelines of the extremely popular Universal Design of Learning, which is based on the educational framework defined by David H Rose, Ed. D of the Harvard Graduate School of Education. This proven methodology, also supported by studies by Benjamin Bloom, shows that there is a drastic improvement in the performance of each student with one-on-one tutoring and customized teaching plans when compared to the traditional classroom setting, where the student-teacher ratio is 30:1.

At the awards ceremony, we got in touch with the COO of MySchoolPage to get her thoughts on winning this award and what it means to MySchoolPage. This is what she had to say:

"We're thrilled that the Indian Education Congress has recognised our focused approach and hard work in steadily improving the tutoring industry around the world. Our tutor hiring process is probably the most stringent in the industry anywhere in the world as we know that good education stems from good tutors. We're looking forward to the next We're going to be busy working to expand the reach of our company to more students in the Middle East and other geographies. This award is a strong testament to the hard work each of our employees is putting in. We're going to work harder now to bring quality tutoring to more students."

Dr. Shailaja Jayashankar, Chief Operating Officer, MySchoolPage.com
